the idea that home is a special place a separate place a place where we can be our true selves is so obvious to us today that we barely pause to think about it but as

judith flanders shows in this revealing book home is a relatively new concept when in 1900 dorothy assured the citizens of oz that there is no place like home she was expressing a view that was a culmination of 300 years of economic physical and emotional change in the making of home flanders traces the evolution of the house across northern europe and america from the sixteenth to the early twentieth century and paints a striking picture of how the homes we know today differ from homes through history the transformation of houses into homes she argues was not a private matter but an essential ingredient in the rise of capitalism and the birth of the industrial revolution without home the modern world as we know it would not exist and as flanders charts the development of ordinary household objects from cutlery chairs and curtains to fitted kitchens plumbing and windows she also peels back the myths that surround some of our most basic assumptions including our entire notion of what it is that makes a family as full of fascinating detail as her previous bestsellers the making of home is also a book teeming with original and provocative ideas

writer f scott fitzgerald s career itself is a metaphor for the vagaries of book publishing if fitzgerald would have had his way we would today refer to the great gatsby as either gold hatted gatsby trimalchio in west egg or the high bouncing lover a few years before gatsby fitzgerald had become a literary sensation at the age of 23 helen hooven santmyer a contemporary of fitzgerald s would not have a successful novel published until she was 88 and living in a nursing home in this book the author explores that mysterious place in publishing where art and commerce can either clash mesh or both along the way a wide range of authors from the literary greats to today s commercial superstars editors agents and publishers share their thoughts insights and experiences what inspires writers john steinbeck for example wrote every novel as if it were his last as if death were imminent why are some books successful and appreciated while others fall into oblivion the answers are often elusive never absolute but the stories and anecdotes are always fascinating

when suhas tambe was initiated into the study and life of a yogi through his indian spiritual master the yoga sutras of patanjali an age old system of guidance were integral to his training tambe is now a scholar and longterm practitioner of this esoteric wisdom he is also the first westerner to reveal the hidden sequence of these sutras which he received from his teacher from the time of patanjali onward 300 bce the scrambling of the sequence of sutras was a respected tradition such deliberate confusion was done with a view to preserving the sanctity of these precious teachings since interpretation of any sutra must bear reference to and consistency with the previous and the following sutra proper sequence becomes a critical factor fundamental to the use of this time honored scripture the key to the real sequence of yoga s tra was handed down verbally by the guru only to the eligible disciple the making of a yoga master reveals this original sequence which has been hidden for so long far more than an instruction manual this book is also about one seeker s progression the author who began his search entrenched in materialism he was an accountant

with an mba working in it was transformed into a devoted yoga practitioner this path thoroughly changed his life s priorities evolved his purpose and dissolved old habits in a way that will be inspiring to many yoga not just entered my life he writes but now it is my life the clear and sequential stages of transformation through yoga are documented here as perhaps nowhere else in contemporary literature this new sequence unfolds a practical road map for knowing and practicing the elevation of the seeker s awareness from the physical to more subtle and refined levels and designates observable milestones to determine one s progress on the path the making of a yoga master marries the philosophy of yoga with clear how to instructions
