this volume offers a representative selection of the papers presented at the third ele international postgraduate conference on language and cognition ele3 held in santiago de compostela 21 22 september 2012 the book is structured into four parts part i comprises syntactic studies on the auxiliary verb get in indian english the grammar of verbs capable of occurring with or without an object in contemporary english and isolated if clauses part ii includes two papers dealing with word formation patterns and with crosslinguistic influences on motion expression in english and spanish the studies in part iii discuss topics related to second language acquisition such as the difficulties encountered by spanish speakers in learning english pronunciation verbal morphology production by japanese learners of english and the effects of elicitation on students production of english past tense forms the papers in part iv revolve around discourse analysis and psycholinguistics addressing topics such as automatic sentiment detection perspectival construal patterns in language and cognition and the effect of emotional valence on disambiguation processes

collective insight of key thought leaders in the field to clarify and reshape the vision of smart cities smart cities energy and climate governing cities for a low carbon future is a seminal work that draws together insights and case studies on post carbon urbanism across a variety of fields from smart energy grids to active buildings sustainable mobility and urban design another objective is to foster an understanding of how digitally enhanced smart city solutions can assist energy transitions and what new developments and challenges they bring in areas ranging from urban governance to energy security key topics covered in this book include recent developments in urban planning building design and smart technologies urban scale digital platforms and innovation for clean energy systems energy efficiency and net zero policies socio technical and political relationships in climate neutral cities and smart cities context rich situated perspectives from europe africa and asia smart cities energy and climate serves as a primary reference for scholars students and policy makers interested in the conceptual technical economic and political challenges associated with the transition towards a smart and sustainable urban future

it has become increasingly clear that metaphor needs to be explored in terms of the social and discourse context in which it is used especially where the aim is to address real world problems the notion of real world metaphor research has been developed to describe this important area of investigation this book starts by describing the nature and scope of real world metaphor research and then illustrates through 17 detailed mainly empirically based studies the different areas it can apply to and different methodologies that can be employed research problems are explored in areas such as artificial intelligence language teaching and learning reconciliation dialogue university lecture discourse poetry and wine description methods include corpus analysis experimentation discourse analysis cross cultural analysis

and genre analysis in each case the empirical studies refer back to gibbs s opening overview of real world research the result is an invaluable and cross referenced collection of papers addressing real world problems

anuario dirigido y gestionado por miembros del Área de filología inglesa del departamento de filología de la universidad de almería con el propósito de ofrecer un foro de intercambio de producción científica en campos del conocimiento tan diversos como la lengua inglesa literatura en lengua inglesa didáctica del inglés traducción inglés para fines específicos y otros igualmente vinculados a los estudios ingleses

in contexts of instructed second language acquisition there is a need for teaching methods that are optimally efficient i e teaching interventions that generate a maximal return on learners and teachers investment of time and effort in the past couple of decades many researchers have argued that insights from cognitive linguistics cl when suitably translated for pedagogical purposes can make a major contribution to fostering such language teaching efficiency this collective volume assesses and supplements those cl proposals the first part of the book positions cl inspired language pedagogy vis à vis recent trends in mainstream applied linguistics and illustrates through several case studies that language focused instruction including cl inspired instruction is a useful if not indispensable complement to learner autonomous incidental acquisition the second part demonstrates how cl research can help pedagogues identify hitherto neglected language elements that merit explicit targeting in second language instruction the third part consists of contributions that put the pedagogical efficiency of several cl inspired interventions to the test in classroom experiments additions to the currently available armoury of teaching methods are proposed the kinds of target language items under examination in the book range from single words

over multiword units to grammar patterns throughout the volume illustrates how much pedagogy oriented cognitive linguistics has matured in recent years
