this comprehensive reframing of gilles deleuze as a transcendental empiricist delves into his seminal difference and repetition to unearth a system that inverts the kantian worldview by focusing on deleuze s theory of the faculties we can see how he builds a transcendental system of thought that defies the predictability of

empirical experience the place of experience in the way we understand our relation to the world to others and to ourselves is a central theme of modern philosophy deleuze's transcendental empiricism points to an unexplored direction in this major philosophical preoccupation it is a road not taken that against the tide of his times rejected the possibility of an immediate contact with being and embraced the possibility of reaching a real that lay beneath many layers of mediation unlike many of his contemporaries deleuze neither subscribed to a specific philosophical school nor did he try to establish one this new understanding of him as a transcendental empiricist not only helps to situate his work in the constellation of twentieth century french philosophers but also helps us to understand a philosopher for whom difference and heterogeneity were central to his own philosophical corpus

fulke greville's reputation has always been overshadowed by that of his more famous friend philip sidney a legacy due in part to greville's complex moulding of his authorial persona as achates to sidney's aeneas and in part to the formidable complexity of his poetry and prose this volume seeks to vindicate greville's obscurity as an intrinsic feature of his poetic thinking and as a privileged site of interpretation the seventeen essays shed new light on greville's poetry philosophy and dramatic work they investigate his examination of monarchy and sovereignty grace salvation and the nature of evil the power of poetry and the vagaries of desire and they offer a reconsideration of his reputation and afterlife in his own century and beyond the volume explores the connections between poetic form and philosophy and argues that greville's poetic experiments and meditations on form convey penetrating and strikingly original contributions to poetics political thought and philosophy highlighting stylistic features of his poetic style such as his mastery of the caesura and of the feminine ending his love of paradox ambiguity and double meanings his complex metaphoricity and dense challenging syntax these essays reveal how greville's work invites us to revisit and rethink many of the orthodoxies about the culture of post reformation england including the shape of political argument and the forms and boundaries of religious belief and identity

this book examines the influence of hume reid smith hutcheson and other scottish enlightenment thinkers on kant's philosophy it begins with the influence of these thinkers on kant then moves to an examination of the relationship between truth freedom and responsibility and its connection to kant's metaphysics and aesthetics

the three volume encyclopedia of giftedness creativity and talent presents state of the art research and ready to use facts from the fields of education psychology sociology and the arts

ever wonder about the meaning of life why we're here what the universe is all about the force that expressed itself through jesus buddha krishna mohammed edgar cayce and other great avatars who served as channels for what is commonly referred to as god communicates again today as the world begins to enter a period of
