this book helps the patient of psychotherapeutic intervention to stay with the therapy beyond both the initial satisfactions and the initial frustrations that the process entails it serves as a guide for patients of psychoanalytic or psychodynamic psychotherapy

story is everywhere in human lives and cultures and it features strongly in the processes of teaching and learning story can be called narrative case study critical incident life history anecdote scenario illustration or example creative writing

storytelling it is a unit of communication it is in the products of the media industries in therapy and in our daily acts of reflecting stories are told in many ways they are spoken written filmed mimed or acted presented as cartoons and in new media formats and through all these they are associated with both teaching and learning processes but in different ways and at different levels as a result of growing interest and simultaneous confusion about story it is timely to untangle the various meanings of story so that we can draw out and extend its value and use using story aims to clarify what we mean by story to seek out where story occurs in education and life and to explore the processes by which we learn from story in this way the book intends to bring story into the open and improve its use building on her wealth of experience in the field jenny moon explores the theory of story and demonstrates both its current uses and new ways in which to enrich and enliven teaching learning and research processes ideal for anyone involved in education personal or professional development or with a more general interest in story the book begins by considering the range of what is meant by story and then considers the theory behind the meanings in the large final part of the book jenny provides a rich patchwork of different uses of story in education that cut across forms of story story activities disciplines and applications all of which will aid the use of story

why do we conceptualize our experience primarily in terms of stories this monograph is a groundbreaking exploration of how narrative structures mirror the architecture of human thought drawing from disciplines as diverse as narratology philosophy psychology and cognitive science it meticulously examines joseph campbell s theory of the monomyth positing its isomorphism with the categories of judgment that immanuel kant considered innate to human cognition the book presents a compelling case that stories represent a reflection of cognitive processes arguing that humans inherently interpret the world and their experiences through a narrative schema deeply ingrained in our consciousness rooted in cognitive semiotics it analyzes in detail the structural similarities between narrative and cognition offering a novel understanding of the fundamental narrative nature of human thought and its implications for how we perceive and interact with the world this book is essential for scholars in narratology and semiotics writers and anyone fascinated by storytelling

harper s magazine made its debut in june 1850 the brainchild of the prominent new york book publishing firm harper brothers harper s magazine the oldest general interest monthly in america explores the issues that drive our national conversation through long form narrative journalism and essays and such celebrated features as the iconic harper s index with its emphasis on fine writing and original thought harper s provides readers with a unique perspective on politics society the environment and culture
