you are about to immerse yourself in a gorgeously readable and engaging account of how teachers  
can move science instruction from hands on to minds on wendy ward hoffer describes how teachers  
can extrapolate what is known about good thinking strategies instruction to science teaching and  
learning hoffer illuminates the path for thousands of teachers in science and beyond who today  
work with those who will lead this country s efforts in energy health care the exploration of sea  
and space and the protection of our planet what work is more vital to our future ellin oliver keene  
coauthor of mosaic of thought second edition this book by an experienced teacher takes professional  
development to a new level many authors of books designed to improve education try to integrate  
best research with best practice few succeed as well as wendy hoffer j myron atkin stanford  
university inquiry is how we learn about the world every day we ask questions gather evidence  
make observations and draw conclusions science as thinking shows how powerful instruction can  
connect the natural curiosity students bring to class to the science curriculum wendy ward hoffer  
uses the fundamental scientific principles of constants and variables as a framework for highly  
effective science teaching she begins with constants the basics of science instruction inquiry big  
ideas workshop assessment culture hoffer shows how building a teaching foundation on these

constants ensures that all of your planning lessons and interactions spark students interests and support deep thinking about science hoffer s variables are the practices you select from every day labs demonstrations lectures projects and other classroom staples she illustrates how these variables can be carefully manipulated to maximize student engagement thinking and understanding science as thinking is a wonderful resource for new teachers but it will just as soon be sticky noted and dog eared by veterans it helps you get started and sustain progress with classroom tested strategies for implementing teaching and refining high quality instruction make direct connections between theory and practice through planning questions conduct meaningful assessment with sample rubrics if you re as serious about improving students learning as they are curious about their world then read science as thinking in it you ll find highly effective and satisfying ways to teach science and turn any science curriculum into the turning point of a young scientist s life

this edition features new material to provide life scientists with the most up to date instructions for basic and advanced cell biological techniques including those at the interface between cell and molecular biology

list of the names of persons engaged in the various activities v 10 p 243 257
