recognition is a fundamental aspect of all social interactions between individuals groups local communities and sovereign states recognition refers to those sociological processes whereby two or more entities such as states groups such as ethnic or cultural communities or individuals interact with one another and come to understand themselves and the other as mutually free individuals as social agents whose identities interests and outlooks are equally bound together without the foundational act of recognition relations can become unequal and antagonistic leading to social pathologies denigration and even open conflict this volume brings together leading international scholars of recognition theory in world politics to discuss the potential for recognition to pacify relations between states groups and individuals and to develop recognition processes in the global community it examines the implications of recognition theory in helping to understand the problem of conflict and the possibilities for forging a form of global ethical community this book was published as a special issue of global discourse

over the past three decades progressive politics in australia has undergone a gradual but unmistakable transformation where the australian labor party once enjoyed dominance over the political left it now shares space with the greens at times depending on minor party support to form government and even more often to pass contentious legislation based on over forty interviews

with politicians and party figures whitlam's children is the first study of this increasingly important relationship in Australian politics did previous attempts at cooperation particularly minority government under Julia Gillard deliver successful government and how do each judge the experiment in hindsight why are certain policy areas like refugee settlement and environmental policy so stubborn and divisive and will we ever see a more lasting coalition on the Australian left to mirror the established arrangement on the Australian right while revealing a variety of perspectives even within parties the research uncovers a productive if often hostile relationship united by a series of shared values but divided by different approaches to politics elections and parliament featuring a preface by Geoff Gallop

from its origins in the University of Birmingham's then Institute of Education in 1948 Educational Review has emerged as a leading international journal for generic educational research seventy five years on mapping the field presents a detailed account of education theory and research policy and practice through the lens of key articles published in the journal over this timespan volume ii opens with part i a collection of articles examining teachers' job dissatisfaction and stress and the gendered composition of the teaching workforce articles in part ii trace a shift in academic focus from schools seen as families communities to the parent school relationship the concepts of inclusion and equality and strategies for their fulfilment in education are interrogated in part iii the volume concludes with part iv in which diverse identities in the education field are represented curated and introduced by the editors the articles included in both volumes of mapping the field represent a careful selection from the work of scholars whose ideas have been and continue to be influential in the field of education overall this major text covers a wide range of topics and offers original insights into educational policy provision processes and practice from around the world

publishing in school psychology and related fields aims to help students early career professionals and seasoned scholars alike better understand the process of peer review and publishing in journals books and other professional oriented forums edited by a former editor of the Journal of School Psychology and containing chapters from insiders who have operated as productive authors reviewers and editors this informative new resource contains practical and invaluable advice for anyone looking to increase their scholarly productivity and jump start their career
