there is a certain comfort in being able to see lincoln or any president simply as either a hero or a villain the truth however is more complicated lincoln s last card helps us look beyond the myths to see lincoln as the flawed and consequential leader that he was few presidential edicts are more famous or misunderstood than the emancipation proclamation the traditional myth about the proclamation is that president lincoln freed the slaves with a bold stroke of his pen this popular understanding deifies lincoln as the sagacious great emancipator and constructs a narrative of american history centered around the heroic deeds of our great presidents a more cynical view bolstered by recent historical examinations of lincoln s own racial biases says the proclamation was much ado about nothing a largely hollow gesture that freed no slaves at all and lacked even a moral indictment of slavery both views however see presidential power as largely unrestricted and unilateral so that lincoln s decisions occur in a virtual vacuum a timeless display of his moral virtue or lack thereof richard ellis a veteran scholar of the american presidency suggests that we look at lincoln s proclamation through the lens of presidential weakness rather than greatness to do so ellis draws on the work of renowned political scientist richard neustadt who explored three cases of command from the twentieth century in his 1960 work presidential power where the public saw presidential success neustadt saw presidents engaged in a painful last resort suggesting not political mastery but rather the failure to achieve goals through other means ellis applies this same perspective to the emancipation proclamation showing how lincoln s great success was in fact his last card lincoln s original hope was to persuade the border states to endorse his plan for gradual compensated abolition preferably coupled with some level of voluntary colonization contrary to conventional wisdom and in contrast to lincoln s reputation as the greatest presidential orator ellis shows how the emancipation proclamation was a sign of lincoln s failure to persuade

the seduction of some of the twentieth century s great thinkers by the most corrupt ideologies of the age communism and nazism is one of the most intriguing stories in the history of that ill fated century in the end of commitment the distinguished sociologist paul hollander investigates how and why these zealots finally fell away from the causes that moved them his is the first book to take a comprehensive historically comparative view of disillusionment with communist systems and ideologies in the course of his study hollander examines the sentiments of former revolutionaries high ranking officials and intellectuals in the soviet union as well as in the soviet bloc countries and in third world communist states
