this first of two volumes introduces the tradition of social catholicism not only in its earlier realizations but regarding how a contemporary renewal might

address the crisis in which constitutional democracies and the postwar liberal order are under assault by populist and even neo fascist movements that could soon usher in a frighteningly dark future unless a broad movement in defense of constitutional democracy quickly arises in this context some of the most influential voices among american catholics are focused on criticizing liberal democracy on advocating a postliberal order and the establishment of a catholic integralist state or on insisting that abortion should be the primary sociopolitical concern for catholics treating these threats to democracy as largely irrelevant this volume shows the rich tradition of social catholicism and how the social doctrine of the church came to appreciate the key tenets of constitutional democracy as pope benedict xvi wrote this social doctrine leads us to take a stand for the common good to take the institutional or political path of charity to be solicitous for the institutions that give structure to the life of society juridically civilly politically and culturally it engages some of the most influential contemporary catholic thinkers and argues that they too should recognize the grave threats facing the human family and join in working to defend and renew our constitutional democracy

this edited volume explores the tension between reason and sentiment in democracies and its contribution to the decline of liberalism bringing together classical liberal scholars with a deep knowledge of public choice ideas the chapters delve into this tension from a variety of perspectives building on the principle of entangled political economy as articulated by richard e wagner this volume engages with new facets of the relationship between choice and consequence and their implications for democratic politics advocating for a reframing of public choice theory as compatible with civic republicanism this volume will be of interest to students and scholars of public choice political economy political theory governance and economic policy

in this definitive historical investigation italian author and philosopher domenico losurdo argues that from the outset liberalism as a philosophical position and ideology has been bound up with the most illiberal of policies slavery colonialism genocide racism and snobbery narrating an intellectual history running from the eighteenth through to the twentieth centuries losurdo examines the thought of preeminent liberal writers such as locke burke tocqueville constant bentham and sieys revealing the inner contradictions of an intellectual position that has exercised a formative influence on today s politics among the dominant strains of liberalism he discerns the counter currents of more radical positions lost in the constitution of the modern world order

in the last 20 years interest in network phenomena has grown immensely among anthropologists psychologists political scientists economists and lawyers empirical observation shows that network arrangements can be found in many branches of business this is often linked to rapid changes in today's markets and technologies but it is not the only reason legal institutions have been at the centre of private law since the industrial revolution but today contracts and corporations cannot cope with the risks and opportunities posed by networks legal practice needs solutions which go beyond the classical traditions of thinking in the dichotomy of contract and corporation this volume is the outcome of a conference held in fribourg switzerland which focused on the legal treatment of contractual networks in particular questions of network expectations the fragility of network institutions and the question of how law can minimise network specific risks towards third parties the contributors among them many of the world's leading scholars in this field include roger Brownsword simon deakin gunther teubner hugh collins and marc amstutz the book will be of interest to scholars of contract corporate law and legal theory

this major reference series brings together a wide range of key international articles in law and legal theory many of these essays are not readily accessible and their presentation in these volumes will provide a vital new resource for both research and teaching each volume is edited by leading international authorities who explain the significance and context of articles in an informative and complete introduction

this volume represents the first section of f a hayek's comprehensive three part study of the relations between law and liberty rules and order constructs the framework necessary for a critical analysis of prevailing theories of justice and of the conditions which a constitution securing personal liberty would have to satisfy

this catalog was designed to accompany an exhibition to celebrate the bicentennials of the northwest ordinance and the u s constitution the exhibition a collaborative and cooperative effort of 15 midwest organizations including 9 universities 3 scholarly libraries and 3 historical societies displayed original historical materials in the form of documents maps paintings letters and books part 1 of the catalog contains 1 an essay by peter onuf entitled the importance of the northwest ordinance 2 an introduction to the northwest ordinance exhibit by john dann and 3 the catalog of information about each exhibited item part 2 contains 1 an essay by pauline maier entitled the philadelphia convention and the development of american government 2 an
