looks at the roots of globalization and how it has changed through history up to the present considers how globalization affects

different countries around the world today and assesses the effects on the environment and culture suggested level secondary why a return to sound money is our only hope for a true recovery and a healthy global economy money clearly illustrates that sound money is an essential foundation for a free and prosperous society and that the federal reserve s current policies are a greater threat to the economic future of the u s than government deficit spending this is an important book well worth reading john a allison president and ceo cato institute and author of the new york times bestselling the financial crisis and the free market cure few topics today are as misunderstood as the subject of money steve forbes understands money better than most heads of state do and in this provocative book he shares his vast knowledge and gives us sensible and time tested recommendations for stopping future financial meltdowns lawrence kudlow cnbc senior contributor economic and monetary policies can be difficult to master for even the savviest politicians money effectively communicates these complexities into a cohesive argument for economic recovery and preventing a new financial crisis steve forbes and elizabeth ames deliver a gripping read and an intriguing viewpoint on how to get our economy back on track greta van susteren host of on the record fox news channel few topics are as misunderstood today as the subject of money since the u s abandoned a gold linked dollar more than four decades ago the world s governments have slid into a dangerous ignorance of the fundamental monetary principles that guided the world s most successful economies for centuries today s wrong headed monetary policies are now setting the stage for a new global economic and social catastrophe that could rival the recent financial crisis and even the horrors of the 1930s coauthored by steve forbes one of the world s leading experts on finance money shows you why that doesn t need to happen and how to prevent it after reading this entertaining and hugely well informed book you will know more about money than most people in the highest government positions today money explains why a return to sound money is absolutely essential if the u s and other nations are ever to overcome today s problems stable money steve forbes and elizabeth ames argue is the only way to a true recovery and a stable and prosperous economy today s system of fluctuating fiat money in which governments manipulate the value of the dollar and other currencies has been responsible for the biggest economic failures of recent decades including the 2008 financial crisis from whose effects we continue to suffer the obama bernanke yellen federal reserve and its unstable dollar policies are accelerating our course toward disaster the authors show in numerous convincing examples in money forbes and ames answer these crucial questions what is the difference between money and value what is real wealth how does sound money contribute to a well functioning society how have our money policy errors led to the current problems in global financial markets what can we do now to reestablish the strength of the dollar and other currencies the authors argue that the most effective way to return to a sound money policy and a healthy

economy is to put the dollar back on a gold standard and they outline the several different forms a gold standard could take they also share invaluable suggestions for how to preserve our wealth and where to invest our money money is essential reading for anyone interested in this crucially important subject

globalization is irreversible and irresistible tony blair this book gives the lie to that claim economic globalization has never been an inevitable part of human history it is eminently reversible and hugely resistible greg buckman argues there are two broad approaches within the anti globalization movement one perhaps the most widely supported and influential strand today he calls the fair trade and back to bretton woods school this argues for immediate reforms of the world s trading system capital markets and global institutions notably the world bank imf and wto the other the localization school takes a more root and branch position and argues for the abolition of these institutions and outright reversal of globalization buckman explains the details of each school s outlook and proposals their weaknesses where they disagree their common ground and where they might come together in campaigns
