work in philosophy of religion is still strongly marked by an excessive focus on christianity and to a lesser extent judaism almost to the exclusion of other religious traditions moreover in many cases it has been confined to a narrow set of intellectual problems without embedding these in their larger social historical and practical contexts why philosophy matters for the study of religion and vice versa addresses this situation through a series of interventions intended to work against the gap that exists between much scholarship in philosophy of religion and important recent developments that speak to religious studies as a whole this volume takes up what in recent years has often been seen as a fundamental reason for excluding religious ethics and philosophy of religion from religious studies their explicit normativity against this presupposition thomas a lewis argues that normativity is pervasive not unique to ethics and philosophy of religion and therefore not a reason to exclude them from religious studies lewis bridges more philosophical and historical subfields by arguing for the importance of history to the philosophy of religion he considers the future of religious ethics explaining that the field as whole should learn from the methodological developments associated with recent work in comparative religious ethics and comparative religious ethics should no longer be conceived as a distinct subfield the concluding chapter engages broader post 9 11 arguments about the importance of studying religion arguing that prominent contemporary notions of religious literacy actually hinder our ability to grasp religion s significance and impact in the world today

a theology for a mediated god introduces a new way to examine the shaping effects of media on our notions of god and divinity in contrast to more conventional social scientific methodologies and conversations about the relationship between religion and media dennis ford argues that the characteristics we ascribe to a medium can be extended and applied metaphorically to the characteristics we ascribe to god just as earlier generations attempted to

comprehend god through the metaphors of father shepherd or mother as a result his work both challenges and bridges the gap between students of religion and media and theology

as societies across the globe rethink and often discard the institutions of marriage and religion interfaith marriages continue to grow in number these unions usually committed to seeing past the traditional sectarian labels often struggle when the traditional sources of support for marital life faith community family support are not available still the determination of interfaith couples to negotiate and cross boundaries gives hope to a fractured world bonni belle pickard draws from her personal and professional experience to suggest ways of addressing the challenges of interfaith couples and their families

are you teaching religious studies in the best way possible do you inadvertently offer simplistic understandings of religion to undergraduate students only to then unpick them at advanced levels this book presents case studies of teaching methods that integrate student learning classroom experiences and disciplinary critiques it shows how critiques of the scholarship of religious studies including but not limited to the world religions paradigm christian normativity orientalism colonialism race gender sexuality and class can be effectively integrated into all courses especially at an introductory level integrating advanced critiques from religious studies into actual pedagogical practices this book offers ways for scholars to rethink their courses to be more reflective of the state of the field this is essential reading for all scholars in religious studies
