this book is a synthetic historiography of present day international relations theory a critical analysis of the continuing diversity and complexity of enduring themes through a sustained focus on the analysis of the empirical evidence accumulated by social scientists special attention is given to key historical changes in theoretical approaches over the past half century with full recognition of the contestation over state based theory and the changing fortunes of contemporary approaches the book suggests that viable theories must transcend current intellectual fashion and attempts to bring together theory and practice while demonstrating the difficulty of assessing competing theories it addresses multiple strands of thought and assumes that their development cannot be understood in isolation from each other

given that the world has moved well beyond the period of western colonialism and clearly into a durable period in which non western cultures have gained their political autonomy it is long past time that non western voices had a higher profile in debates about international relations not just as disciples of western schools of thought but as inventors of their own approaches western ir theory has had the advantage of being the first in the field and has developed many valuable insights but few would defend the position that it captures everything we need to know about world politics in this book acharya and buzan introduce non western ir traditions to a western ir audience and challenge the dominance of western theory an international team of experts reinforce existing criticisms that ir theory is western focused and therefore misrepresents and misunderstands much of world

history by introducing the reader to non western traditions literature and histories relevant to how ir is conceptualised including case studies on chinese japanese south korean southeast asian indian and islamic ir this book redresses the imbalance and opens up a cross cultural comparative perspective on how and why thinking about ir has developed in the way it has as such it will be invaluable reading for both western and asian audiences interested in international relations theory
