this book offers a new way of thinking about the causes and consequences of cost overrun to firms and society it is ideal for academic researchers in project management management accounting and corporate finance as well as for managers in the private and public sectors

organizations regularly assume that the culture values dynamic and organization of their temporary project organizations are merely a smaller version of the original parent given that project organizations are made up of people and teams drawn in most cases from outside and inside the parent these assumptions are nonsensical but they do explain why the hr function finds it difficult to adapt to the project environment martina huemann s research in human resource management in the project oriented organization offers insight into an approach that is designed to align hr to the needs of the project organization in terms of management structure reward recruitment and performance systems the text analyses how the

modern hr organization stacks up alongside the temporary organization that is the project to identify the hr constraints and needs of the project organisation and offer a model of project oriented hrm professor huemann had a deep interest in how and why change processes come into existence and how to design and enable them in her book she endeavors to bridge theory and practice strategy and operations

a neo industrial economy is emerging where the use of projects and temporary organisations are increasingly used in industry it examines this phenomenon and develops a new theory of the project intensive economy
