kennedy s groundbreaking book the rise and fall of the great powers helped to reorder the current priorities of the united states now he synthesizes extensive research on fields ranging from demography to robotics to draw a detailed persuasive and often sobering map of the very near future a bold work that bridges the gap between history prophecy and policy

a new york times 1 bestseller an amazon 1 bestseller a wall street journal 1 bestseller a usa today bestseller a sunday times bestseller a guardian best book of the 21st century winner of the financial times and mckinsey business book of the year award winner of the british academy medal finalist national book critics circle award it seems safe to say that capital in the twenty first century the magnum opus of the french economist thomas piketty will be the most important economics book of the year and maybe of the decade paul krugman new york times the book aims to revolutionize the way people think about the economic history of the past two centuries it may well manage the feat the economist piketty s capital in the twenty first century is an intellectual tour de force a triumph of economic history over the theoretical mathematical modeling that has come to dominate the economics profession in recent years steven pearlstein washington post piketty has written an extraordinarily important book in its scale and sweep it brings us back to the founders of political economy martin wolf financial times a sweeping account of rising inequality piketty has written a book that nobody interested in a defining issue of our era can afford to ignore john cassidy new yorker stands a fair chance of becoming the most influential work of economics yet published in our young century it is the most important study of inequality in over fifty years timothy shenk the nation

in this book alex battler questions the assertion of russia s status as a great power in the acuminate form the author reveals the contradictions between russia s real modern potential and its foreign policy objectives formulated by official moscow the author has formulated laws on the pole the center of power and force battler introduces some new concepts of the theory of international relations the foreign policy potential of the state and the law on the optimal balance between the costs of domestic and foreign policy on almost all problems raised by the author his views do not coincide with generally accepted interpretations and approaches the second extended edition of the book the twenty first century the world without russia includes updated copyright and newly added parts and paragraphs

this is a collection of original essays by leading conrad scholars that rereads conrad in light of his representations of post colonialism of empire imperialism and of modernism questions that are once again relevant today

contents

winner of the 2014 john collier jr award winner of the jo anne stolaroff cotsen prize life at home in the twenty first century cross cuts the ranks of important books on social history consumerism contemporary culture the meaning of material culture domestic architecture and

household ethnoarchaeology it is a distant cousin of material world and hungry planet in content and style but represents a blend of rigorous science and photography that these books can claim using archaeological approaches to human material culture this volume offers unprecedented access to the middle class american home through the kaleidoscopic lens of no limits photography and many kinds of never before acquired data about how people actually live their lives at home based on a rigorous nine year project at ucla this book has appeal not only to scientists but also to all people who share intense curiosity about what goes on at home in their neighborhoods many who read the book will see their own lives mirrored in these pages and can reflect on how other people cope with their mountains of possessions and other daily challenges readers abroad will be equally fascinated by the contrasts between their own kinds of materialism and the typical american experience the book will interest a range of designers builders and architects as well as scholars and students who research various facets of u s and global consumerism cultural history and economic history

this volume examines colombia s political economy at the outset of the twenty first century a group of leading experts explores various issues such as drug trafficking organized crime economic performance the internal armed conflict and human rights the experts highlight the various challenges that colombia faces today this volume is a major contribution to the field and provides a current panorama of the colombia conflict

why another book about biblical interpretation hermeneutics first this is not just another book about hermeneutics it deals specifically with hermeneutics as practiced y pentecostals rather more accurately as hermeneutics should be practiced by pentecostals the book presents a distinct pentecostal hermeneutic that moves away from exclusive use of historical grammatical methodology the hermeneutic presented here employs an eclectic methodology and a quadratic strategy scripture spirit trained leader and community in the proposed hermeneutic are shown to work together to produce an interpretation that engages both creative imagination and authorial intent the text offers pastors professors and laity alike a method and approach that will allow them to interpret scripture from a clearly pentecostal perspective an important addition to the book is an outline for an undergraduate course instructing students in this distinct pentecostal hermeneutic

irish theatre in the twenty first century is the first in depth study of the subject it analyses the ways in which theatre in ireland has developed since the 1990s with emerging playwrights martin mcdonagh conor mcpherson and enda walsh companies such as blue raincoat the corn exchange and pan pan pioneered an avant garde dramaturgy this led to new styles of production of classic irish works including the plays of synge mounted by druid there was a re imagining of past irish history in the work of rough magic and anu plays by owen mccafferty stacey gregg and david ireland dramatized the legacy of the troubles and adaptations of greek tragedy by marina carr and others reflecting the conditions of modern ireland from 2015 the movement wakingthefeminists led to a sharpened awareness of gender

while male playwrights showed a toxic masculinity on the stage a generation of female dramatists including carr gregg and nancy harris gave voice to the long suppressed experiences of women for three separate periods 2006 2016 and 2020 2 the author served as one of the judges for the irish times irish theatre awards attending all new productions across the island of ireland this allowed him to provide the overviews of the state of play of irish theatre in each of those times which punctuate the book drawing also on interviews with ireland s leading theatre makers grene provides readers with a close up understanding of irish theatre in a period when ireland became for the first time a fully modernized secular and multi ethnic society

gender as an institution davis winslow maume the family higher education the workplace religion the military sport corporate boards and international policies corporate boards and u s policies work family integration health immigration globalization sexuality unstalling the revolution policies toward gender equality winslow davis maume

what are the grand dynamics that drive the accumulation and distribution of capital questions about the long term evolution of inequality the concentration of wealth and the prospects for economic growth lie at the heart of political economy but satisfactory answers have been hard to find for lack of adequate data and clear guiding theories in this work the author analyzes a unique collection of data from twenty countries ranging as far back as the eighteenth century to uncover key economic and social patterns his findings transform debate and set the agenda for the next generation of thought about wealth and inequality he shows that modern economic growth and the diffusion of knowledge have allowed us to avoid inequalities on the apocalyptic scale predicted by karl marx but we have not modified the deep structures of capital and inequality as much as we thought in the optimistic decades following world war ii the main driver of inequality the tendency of returns on capital to exceed the rate of economic growth today threatens to generate extreme inequalities that stir discontent and undermine democratic values if political action is not taken but economic trends are not acts of god political action has curbed dangerous inequalities in the past the author says and may do so again this original work reorients our understanding of economic history and confronts us with sobering lessons for today

the editor in chief of the economist illuminates what global issues mattered in the last century and how the ways in which we deal with them will shape our lives in the next the attacks on september 11th 2001 shook the rich west out of its complacency suddenly peace looked to be in peril even before that time prosperity was endangered as campaigns mounted against the purported evils of capitalist globalization such as inequality pollution and financial instability and as america s high tech stockmarket boom turned to bust yet in the decade following the end of the cold war prospects had looked so rosy with peace prevailing among the world s great powers with billions of people joining the world market economy and with great waves of technological change driving economies forwards what to make of such confusion and disappointment what will the 21st century be like now bill emmott editor of the world s leading current affairs weekly

the economist argues that the best way to think about the future is to look back at the past at the forces that have shaped our world and at what they tell us about the things that really matter in determining whether we are at peace or at war in a state of liberty or repression in a period of prosperity or of depression from the twentieth century we can learn that two questions matter above all others will america continue to lead the world and to protect its peace and will we continue to accept capitalism with all its strengths and weaknesses or will it be challenged once again bill emmott s 20 21 vision provides the answers that matter for all our lives in the twenty first century

this text offers a comprehensive examination of the many aspects of the main world religions the book contains key information and statistics and covers topics including messengers scriptures worship pilgrimage festivals and life ceremonies

summary of capital in the twenty first century by thomas piketty includes analysis preview thomas piketty s capital in the twenty first century is a study of inequity both historically and in the present the book describes how the concentration of wealth has changed over time its central thesis is that return on capital is greater than growth over time which means that capital and inequality inevitably increase the book also considers the ways governments might address the increasing concentration of wealth in the future many economists have argued that increasing worker productivity in the modern era will inevitably result in reduced inequality the historical record suggests that this is untrue for most of history there has been a huge gap between the rich and poor with no real middle class that changed in developed countries during the twentieth century for a number of reasons first two world wars caused massive shocks to the status quo and resulted in severe losses to many holders of capital please note this is key takeaways and analysis of the book and not the original book inside this instaread summary of capital in the twenty first century overview of the book important people key takeaways analysis of key takeaways about the author with instaread you can get the key takeaways summary and analysis of a book in 15 minutes we read every chapter identify the key takeaways and analyze them for your convenience

conference report on future employment and labour relations in the usa covers economic forecasting effects of technological change the fate of collective bargaining and workers participation labour force projections emphasis on service sector the role of woman workers changing value systems and life style etc bibliography pp 223 to 225 and graphs conference held in richmond 1979

technological advances particularly the ubiquitous home computer make it imperative to re examine and update antiquated zoning provisions that limit or prohibit work at home charles wunder examines both the content and impact of existing regulations and finds most of them to be neither sensible useful nor enforceable he suggests a new framework for organizing home based business regulations and an attitude toward implementation and enforcement that encourages entrepreneurship creativity and individual expression while still protecting neighborhood residential character
