early african caribbean newspapers as archipelagic media in the emancipation

age shows how two black edited periodical publications in the early decades of the nineteenth century worked towards emancipation through medium specific interventions across material and immaterial lines more concretely this book proposes an archipelagic framework for understanding the emancipatory struggles of the antiguan weekly register in st john s and the jamaica watchman in kingston complicating the prevalent narrative about the register and the watchman as organs of the free people of color this book continues to explore the heterogeneity and evolution of black newspaper print on the liberal spectrum as such early african caribbean newspapers makes the case that the register and the watchman participated in shaping the contemporary communication market in the caribbean to do so this study engages deeply with both the textuality and materiality of the newspaper and presents fresh visual material

seminar paper from the year 2009 in the subject english language and literature studies literature grade 2 university of education ludwigsburg language english abstract one of the most basic and insightful bonds women form with each other is that of a mother and daughter the different stages that a mother and her daughter are going through during their lives and the insuperable unity they have is a fact that people have been reflecting about at all times the impact that a mother has on her daughter is huge no matter how distinct their relationship is passing on values protecting the child and showing unconditional love are some of the main tasks of being a mother but what if the mother fails to complete these tasks jamaica kincaid grew up in antigua and was raised by a father who was never there and a mother who gave all her attention to her brothers she fled the island at the age of seventeen left her family as well as her name behind and entered north america as jamaica kincaid even though she came to terms with the past she copes with her experiences through writing books kincaid s tight lyrical prose guides the reader through memories of her mother and her childhood due to her lifestory jamaica kincaid manages to portray her fiction in an extremely pure and touching way in the following i will take a closer look at her biography and origin i will also analyze two of her novels autobiography of my mother and annie john and interpret them in regard to the mother theme

seminar paper from the year 2006 in the subject english language and literature studies linguistics grade 1 3 ernst moritz arndt university of greifswald language english abstract throughout the last centuries the english language spread all over the world first and foremost due to the colonial politic of its motherland great britain especially in the caribbean the british empire had a lot of colonies in the past one in fact the biggest one of these was jamaica being one of the world s many english speaking countries it is worth studying especially from a linguistic point of view because it is one of the few caribbean countries in which a standard english and an english based creole have been employed almost since its colonization to get a precise picture of what english is like in jamaica one has to

consider the history of the jamaican languages as well as the present situation as a standard variety and a creole coexist in jamaica one has to look at both of them in isolation and at how they influence each other therefore it will not only be of interest to examine the function and some of the linguistic features of jamaican english and the jamaican creole but also the post creole continuum first of all a look at the history will make clear how the english language developed in jamaica the following chapters will deal with standard jamaican english and jamaican creole in particular and finally the examination of the post creole continuum will make the consequences of the mutual influence of these two languages clear david l lawton s text english in the caribbean and the book linguistic variation in jamaica a corpus based study of radio and newspaper usage by andrea sand will form a useful basis for the study of the english language in jamaica and will be completed by other subject relevant literature the aim of this term paper is to provide an insight into the linguistic diversity in jamaica and thus to illustrate how a standard variety like standard jamaican english and a creole like jamaican creole coexist this text does however not aim at completeness with regard to the linguistic features of these languages which is not least due to the fact that the linguistic situation is not completely explored yet but it shall serve as some kind of introductory description of the english language in jamaica and thus contribute to a basic understanding of the subject

bachelor thesis from the year 2015 in the subject psychology social psychology grade 2 1 university of derby course bachelors hons psychology language english abstract this qualitative interpretive phenomenological study uses semi structured interviews from 5 jamaican teachers to investigate their experiences of control in the classroom since 2005 the ministry of education in jamaica prohibited the use of corporal punishment cp in early childhood settings but there is research to show that children are still receiving physical punishment and teachers have been reported to still be using cp in schools using interpretive phenomenological analysis across all 5 participants revealed a strong influence of cultural norms that encourages the use of cp a lack of support from the jamaican teachers association and the ministry of education ineffective teacher training courses and lack of support from the community causing these teachers to still rely on cp for want of a better solutions in light of these findings this study hopes to provide insight for education policy makers to provide effective classroom management modules at teacher training college introduction of school intervention programmes parenting programmes and to better support its teachers to eliminate the use of cp across jamaica not just in schools alone

essay from the year 2003 in the subject sociology politics majorities minorities university of phoenix language english abstract following is a needs assessment for the community of jamaica in queens new york needs assessment methodology must be comprised of four aspects if it is to be committed to the powerless and

foster social change according to rothman erlich troyman 270 these aspects include an emphasis on techniques that facilitate grouping and mobilizing citizens techniques that promote collective activities techniques that assist in the development of leadership and techniques that involve the residents of the community in the entire research process

seminar paper from the year 2004 in the subject english language and literature studies linguistics grade 1 0 university of bayreuth lehrstuhl für englische sprachwissenschaft course english based pidgin and creole languages and beyond language english abstract dealing with linguistics one clearly realises that language is anything else but a static subject actually language finds itself in constant change and is shaped by its speakers and the situation they are in one of the many influences that form language has always been contact with new people and different languages which for example happened when the britains began to explore the world and brought english to the new continents many different new varieties and languages developed one of them being jamaican creole far away from great britain it found its niche in jamaica where it is spoken by many as their native language pidgins and creoles are a well explored subject in linguistics but what happens when these languages return to the home countries of one of their root languages one of the classic examples is london jamaican spoken mostly by black immigrants and their descendants in london in this paper i am going to outline the history and sociolinguistic situation of london jamaican and its characteristic features regarding grammar and phonology also i will describe how two extremely distinct varieties jamaican creole and london english have influenced each other and how london jamaican functions in everyday contexts in the early 16th century european nations began exploring the world and soon secured their newly gained territories by making them their colonies the caribbean islands including jamaica as well were colonized by the british spanish dutch french and others together with the languages of the natives and of africans who came to the caribbean as slaves there was a strong demand for a common language to make communication between these different groups possible this led to the development of pidgin languages i e the mixture of at least two different languages such a new lingua franca was mainly used in contact situations and not spoken as a native language often this development resumed in the process of creolisation pidgins were becoming native languages developing a more complex vocabulary and grammar usually creoles exist alongside more prestigious standard languages e g jamaican standard english of which the creole forms are often considered as wrong in jamaica english was the lexifier thus most jamaican creole words derive from british english

seminar paper from the year 2004 in the subject american studies literature grade 2 0 humboldt university of berlin amerikanistisches institut course hs postcolonial theory literature and gender language english abstract introduction

the autobiographical novel *Lucy* was written by Jamaica Kincaid in 1990 the author who was born in 1949 on the Caribbean island of Antigua is one of the representative figures of postcolonial literature which has been gaining prominence since the 1970s with the appearance of the work *The Empire Writes Back* theory and practice in post colonial literatures written by Bill Ashcroft, Gareth Griffiths and Helen Tiffin in 1989 the popularity of the term postcolonialism grew even more the definition of the term is still widely discussed but in general postcolonial literature deals with the effects of colonization on the colonized people and society after the end of colonization the term post indicates that postcolonialism is relating to the time following the establishment of independence in a colony that means the time after the colonial powers have left the country and the time of colonization is over nevertheless the issues of postcolonialism are so many sided that they often transcend a strict definition of the term which is therefore used much more loosely in practice postcolonial themes not only discuss the period after the departure of the imperial powers but also deal with the time before independence major issues are the oppression of the indigenous people by the imperial powers the gaining of independence the impact of colonization on postcolonial history and culture the search for personal and national identity but also the economic dependency of the postcolony on its former colonizers thus some critics even question the term postcolonialism since it indicates that the period when the colony was dependent on its colonizers is over they argue that most former colonies are still or even again economically dependent on the mother country that colonized them those neocolonial forms of oppression and exploitation are probably caused by globalization which means by the increasing mobility of goods services labour technology and capital throughout the world

excerpt from *Bibliographia Jamaicaensis* a list of Jamaica books and pamphlets magazine articles newspapers and maps most of which are in the library of the Institute of Jamaica the books have been classified under the various headings suggested by the works themselves as well as by a study of Jamaica history the list was originally compiled for insertion in the Jamaica Handbook for 1902 for the sake of space the titles were in some instances shortened and the sizes of the

volumes and other bibliographical information omitted but even when compressed as much as possible the list was found too long for insertion in the handbook and it is accordingly issued in its present form a few notes of general cross reference have been added to the classification but complete cross references would be more voluminous than the list itself all books treating on the west indies generally could of course be fairly included in a jamaica bibliography but as this would have unduly swelled the list it has been thought advisable to include only such west indian books as deal with jamaica alone adding only a few of the principal of those which deal chiefly with this island all books and pamphlets dealing solely with jamaica have been catalogued without reference to merit about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
