prosody has been characterised as a half tamed savage being shaped by both discrete categorical aspects as well as gradient continuous phenomena this book is concerned with the relation of the wild and the tamed sides of prosodic prominence it reviews problems that arise from a strict separation of categorical and continuous representations in models of phonetics and phonology and it explores the potential role of descriptions aimed at reconciling the two domains in doing so the book offers an introduction to dynamical systems a framework that has been studied extensively in the last decades to model speech production and perception the reported acoustic and articulatory data presented in this book show that categorical and continuous modulations used to enhance prosodic prominence are deeply intertwined and even exhibit a kind of symbiosis a multi dimensional dynamical model of prosodic prominence is sketched based on the empirical data combining tonal and articulatory aspects of prosodic focus marking the model demonstrates how categorical and continuous aspects can be integrated in a joint theoretical treatment that overcomes a strict separation of phonetics and phonology

this book honours the contribution of marjolijn verspoor to the development and implementation of dynamic usage based dub approaches in second language l2 research and pedagogy with chapters written by renowned experts in the field the book addresses the dynamics of language language learning and language teaching from a usage based perspective the book contains both theory and empirical work the initial theoretical chapters present cutting edge thinking in relation to both the scope of dub theory and its applications providing conceptual perspectives from cognitive grammar and linguistics thinking for speaking tfs and complex dynamic systems theory cdst approaches united by their shared underpinnings of language as a dynamic system of conventionalized routines the second half of the volume showcases state of the art methodologies to study dynamic trajectories of language learning empirical investigations into the above mentioned theoretical concepts and innovative classroom implementations of dub language pedagogy

the last few years have seen a steadily increasing interest in constructional approaches to language contact this volume builds on previous constructionist work in particular diasystematic construction grammar dcxg and the volume constructions in contact 2018 and extends its methodology and insights in three major ways first it presents new constructional research on a wide range of language contact scenarios including afrikaans american sign language english french malayalam norwegian spanish welsh as well as contact scenarios that involve typologically different languages second it also addresses other types of scenarios that do not fall into the classic language contact category such as multilingual practices and language acquisition as emerging multilingualism third it aims to integrate constructionist views on language contact and multilingualism with other approaches that focus on structural social and cognitive aspects the volume demonstrates that construction grammar is a framework particularly well suited for analyzing a wide variety of language contact phenomena from a usage based perspective

this volume brings together research on panel studies with the aim of providing a coherent empirical and theoretical knowledge base for examining the impact of maturation and lifespan specific effects on linguistic malleability in the post adolescent speaker building on the work of wagner and buchstaller 2018 the present collection offers a critical examination of the theoretical implications of panel research across a range of geographic regions and time periods the volume seeks to offer a way forward in the debates circling about the phenomenon of later life language change drawing on contributions from a variety of linguistic disciplines to examine critical topics such as the effect of linguistic architecture the roles of mobility and identity construction and the impact of frequency effects taken together this edited collection both informs and pushes forward key questions on the nature of lifespan change making this key reading for students and researchers in cognitive linguistics historical linguistics dialectology and variationist sociolinguistics

language development and the challenges it can present for individuals who are deaf or hard of hearing have long been a focus of research theory and practice in d deaf studies and deaf education over the past 150 years but most especially near the end of the 20th and beginning of the 21st century advances in the acquisition and development of language competencies and skills have been increasing rapidly this volume addresses many of those accomplishments as well as remaining challenges and new questions that have arisen from

multiple perspectives theoretical linguistic social emotional neuro biological and socio cultural contributors comprise an international group of prominent scholars and practitioners from a variety of academic and clinical backgrounds the result is a volume that addresses in detail current knowledge emerging questions and innovative educational practice in a variety of contexts the volume takes on topics such as discussion of the transformation of efforts to identify a best language approach the sign versus speech debate to a stronger focus on individual strengths potentials and choices for selecting and even combining approaches the effects of language on other areas of development as well as effects from other domains on language itself and how neurological socio cognitive and linguistic bases of learning are leading to more specialized approaches to instruction that address the challenges that remain for deaf and hard of hearing individuals this volume both complements and extends the oxford handbook of deaf studies and deaf education volumes 1 and 2 going further into the unique challenges and demands for deaf or hard of hearing individuals than any other text and providing not only compilations of what is known but setting the course for investigating what is still to be learned

this book summarizes underwater discoveries in akko from the bronze age to the ottomans including harbour installations lighthouses shipwrecks cargoes fishing gear glass artifacts ceramics and gold and copper coins old charts and photographs together with the archaeological finds shed light on the maritime history of akko and reveal

an examination of the growth of civic power in the turbulent arena of late medieval london in the late fourteenth century london s government through mismanagement and negligence experienced a series of crises relationships with the crown were tested competing factions sought to wrest power from the hands of the once all powerful victualling guilds revolt in the streets in 1381 targeted the institutions of royal as well as civic power and between 1392 and 1397 king richard removed the liberties of the city and appointed his own wardensto govern in place of the mayor of london this book examines the strategies employed by the generation of london aldermen who governed after 1397 to regain control of their city by examining a range of interdisciplinary sources including manuscript and printed books administrative records accounts of civic ritual and epitaphs the author shows how by carefully constructing the idea of a civic community united by shared political concerns and spiritual ambitions

a small number of men virtually monopolised power in the capital more generally this is an exploration of the mentalities of those who sought civic power in the late middle ages and provokes the question why govern and for whom david harry is lecturer in history at the university of chester

the first study examining the translation and reception of dutch literature in eastern and central europe during the restrictive era of socialist and totalitarian political systems
