publisher description

more than 30 highly respected experts contribute cutting edge information to give readers a comprehensive look at early education and kindergarten transition

families and parents have the most central and enduring influence on children's lives of all the modifiable factors that influence child and adolescent development and life course outcomes the important role of parenting arouses the interest of many researchers exploring the effect of parenting on their children's social emotional adjustment mental health and academic achievement and its underlying mechanism could provide an extremely important reference for early intervention prevention and treatment despite a large number of local national or international empirical studies in this field some questions are still open for discussion such as the underlying mechanism of the association between parents' cognition parenting practices and child development under a comprehensive system of parenting in a different demographic e.g. racial ethnic and economic contexts the changes of parenting accompanied with social change and era development the interaction of parenting and other factors within family system or other external systems e.g. school and so on for this research topic we adopt a broad definition of parenting including parents' opinions and feelings about their own parenting roles and parents' beliefs attitudes socialization goals and parenting practices toward their children the main aim is to explore the effect of parenting on child and adolescent development including self social emotional and academic development which can help further design effective intervention programs to promote children's and adolescents' positive development via effective parenting we are particularly interested in manuscripts focusing on the following research subtopics 1 theories and underlying mechanisms mediators or moderators to explain why and how could parenting affect child and adolescent development 2 the associations between parenting and child development in different demographic contexts or at different times 3 the similarities and discrepancies between children and parent report about parenting and its influence on the child and adolescent development 4 the specific effect of paternal parenting or the effect of co-parenting on child and adolescent development 5 the potential interaction effect of parenting and other factors such as teacher peer grandparent and sibling on child and adolescent development quantitative studies e.g. cross sectional and longitudinal studies cohort studies experimental studies intervention studies meta analysis and qualitative studies e.g. interview studies observational studies systematic review are both welcome

this book reviews the history of the entrance age debate and presents current views on the concept of school readiness special features include a discussion of the transition room for the at-risk child the social and emotional adjustment of young for age children and the assessment of readiness in the schools there is a review of intervention approaches found to be of value with young children and a discussion of retention for the young child a

unique feature of the book is the inclusion of the reactions of parents to current school practices and assessment practices a chapter also is included that discusses legal and ethical issues involved in school readiness practices

metacognitive skills thinking about thinking are a form of abstract thought that signify a major advance in cognition in both phylogeny and ontogeny metacognition is associated with a host of positive outcomes including academic achievement and mental health although decades of research have led to discoveries about the nature and development of metacognition in school age children newer approaches suggest there are precursor skills in infancy and early childhood investigators also are turning toward experimental and field based intervention studies to help foster metacognition in the service of learning and to reduce socioeconomic achievement gaps

extensive empirical research has documented the value of play for both cognitive and social development despite the evidence educators and policy makers are eliminating the free play periods that have long been a central part of a young child s experience in preschool and childcare in children s play leading experts in play research child development and early childhood education examine recent policy decisions and demonstrate the importance of play in helping children learn basic literacy skills social awareness and creative problem solving readers will also find a comprehensive summary of the developmental benefits of play examples of how research has been applied in practice a multicultural perspective on play and ideas for how to play imaginative games with children

the seven chapters of listening and learning 2004 contain indicators that describe different aspects of life in the 26 knight communities chapter 1 provides the context for knight foundation program work in these communities by highlighting some of the most important demographic economic and social characteristics that place each community in its own unique environment the next six chapters present indicators in each area supported by knight foundation s community partners program

in this guide baker combines her background in early childhood education with her experience as a youth services programming specialist to present a school readiness program that can be tailored for any public library
