trends in linguistics is a series of books that open new perspectives in our understanding of language the series publishes state of the art work on core areas of linguistics across theoretical frameworks as well as studies that provide new insights by building bridges to neighbouring fields such as neuroscience and cognitive science trends in linguistics considers itself a forum for cutting edge research based on solid empirical data on language in its various manifestations including sign languages it regards linguistic variation in its synchronic and diachronic dimensions as well as in its social contexts as important sources of insight for a better understanding of the design of linguistic systems and the ecology and evolution of language trends in linguistics publishes monographs and outstanding dissertations as well as edited volumes which provide the opportunity to address controversial topics from different empirical and theoretical viewpoints high quality standards are ensured through anonymous reviewing

aid to developing countries started well before world war ii but was undertaken as an ad hoc activity or was delivered by private organizations this changed after the war in his inaugural address in 1949 the american president harry truman announced a bold new programme for making the benefits of our scientific advances and industrial progress available for the improvement and growth of underdeveloped nations the so called point iv plan at that time it was thought that this support would be needed only for a limited number of years comparable to the marshall plan assistance to europe but reality proved to be different providing aid was a very long term affair since the fifties the aid provided has changed at different occasions in the beginning aid concentrated on constructing infrastructure such as

roads railways dams and harbours in order to promote industrial development in the sixties aid to agriculture was added and in the seventies aid to social sectors basic needs was also provided the eighties brought worldwide debt problems major donors applied structural adjustment policies some called this the lost decade *década perdida* the nineties saw the arrival of the first environmental concerns and asked for attention for the role of women and good governance the form of aid changed from projects to programmes and budget support describing the different aid forms of the last 65 years and analysing why aid changed from time to time are the subjects of this book professionals and students in the area of international cooperation will benefit from studying this history as at this moment old concepts are reappearing or applied by new donors like china is the pendulum really swinging back as louis emmerij at one point suggested

this volume addresses two pivotal questions surrounding the composition of 1maccabees it sets out to discern the place and function of the torah within the community described by the book however before addressing the main problem the author must first determine the composition history of the text given that the former orthodoxy of a unitary authorship seems to be breaking down and no consensus has taken its place a literary critical investigation occupies a necessary and lengthy portion of the work once a recommendation for the book's composition history is reached attitudes toward the inherited judean tradition are described in each of the strata discovered the resulting study reveals a wide variety of opinions on the judean traditions and their function in society this contributes to the current trend in scholarship of the hellenistic period questioning the dichotomy between judaism and hellenism by demonstrating the different attitudes within even one text

a revised and updated edition of emily nagoski's game changing new york times bestseller come as you are featuring new information and research on mindfulness desire and pleasure that will radically transform your sex life for much of the 20th and 21st centuries women's sexuality was an uncharted territory in science studied far less frequently and far less seriously than its male counterpart that is until emily nagoski's come as you are which used groundbreaking science and research to prove that the most important factor in creating and sustaining a sex life filled with confidence and joy is not what the parts are or how they're organized but how you feel about them in the years since the book's initial publication countless women have learned through nagoski's accessible and informative guide that things like stress mood trust and body image are not peripheral factors in a woman's sexual wellbeing they are central to it and that even if you don't

t always feel like it you are already sexually whole by just being yourself this revised and updated edition continues that mission with new information and advanced research demystifying and decoding the science of sex so that everyone can create a better sex life and discover more pleasure than you ever thought possible

the five volume set Incs 3980 3984 constitutes the refereed proceedings of the international conference on computational science and its applications iccsa 2006 the volumes present a total of 664 papers organized according to the five major conference themes computational methods algorithms and applications high performance technical computing and networks advanced and emerging applications geometric modelling graphics and visualization information systems and information technologies this is part iv
