a general relativity workbook is a textbook intended to support a one semester upper division undergraduate course on general relativity general relativity which lies at the heart of contemporary physics has recently become the focus of a number of lively theoretical experimental and computational research programs as a result undergraduates have become increasingly excited to learn about the subject a general relativity workbook is a textbook intended to support a one semester upper division undergraduate course on general relativity through its unique workbook based design it enables students to develop a solid mastery of both the physics and the supporting tensor calculus by pushing and guiding them to work through the implications each chapter which is designed to correspond to one class session involves a short overview of the concepts without obscuring derivations or details followed by a series of boxes that guide students through the process of working things out for themselves this active learning approach enables students to develop a more secure mastery of the material than more traditional approaches more

than 350 homework problems support further learning this book more strongly emphasizes the physics than many of its competitors and while it provides students a full grounding in the supporting mathematics unlike certain other competitors it introduces the mathematics gradually and in a completely physical context

since color is such a important part of graphic design designers need the most up to date as well as the most fundamental information on the subject to have the tools needed to use color effectively from the meanings behind colors to working with color in presentations this book provides readers with the vital information needed to apply color creatively and effectively to their design work readers also receive guidance on talking with clients about color and selling color ideas the science behind color theory is also explained in easily understood language and case studies are included to show the effects some color choices had on both their clients and consumers
