minuaciosa y ampliamente ilustrada con planos cartas informativas y fotografías aereas esta guia recoge como ninguna otra toda la información precisa para la navegación por las islas baleares hasta 305 puertos y fondeaderos detallando además de los derroteros y waypoints información general sobre suministros y servicios de los puertos deportivos marinas comunicaciones por radio así como una introducción a la zona en cuanto a la historia gastronomia etc

información actualizada e ilustrada de 115 puertos y fondeaderos de lanzarote fuerteventura gran canaria tenerife la gomera la palma y el hierro de las islas canarias y de porto santo madeira islas desiertas e islas salvajes del archipiélago de madeira con 75 cartas informativas y planos y 95 fotografías esta guía recoge como ninguna otra todos los datos precisos para la

navegación por estos dos archipiélagos del atlántico detallando además de los derroteros aproximación luces etc información general sobre suministros y servicios en tierra

en este libro el médico y navegante cántabro relata la travesía que en 2015 realizó con su pequeño velero hasta bretaña al estar el barco despachado solo para la navegación a 12 millas las travesías las realiza siempre costeano lo que le obliga a seguir el relieve de la costa sin atajos pero lejos de ser un inconveniente el autor lo considera una ventaja pues le permite conocer a fondo los sitios por los que navega entrar en puertos desconocidos y relacionarse más con la gente pues como él afirma con un barco pequeño caes simpático en los puertos y te dan más facilidades que si llegas con un superyate y eso también cuenta además el pequeño calado le permite internarse en las aguas interiores allí donde los barcos más grandes no pueden entrar la bahía de arcachon el golfo de morbihan o los cuatro ríos sorprendentes de la costa atlántica de francia el marle el auray el vilaine y el loire algunos de ellos con calado inferior a un metro o que se secan en bajamar pasaron bajo la quilla del corto maltés impregnán ole de sus maravillosos paisajes y proporcionándole multitud de anécdotas que nos relata en estas páginas el objetivo del autor es transmitir a los propietarios de veleros pequeños la convicción de que pueden realizar grandes navegaciones y descubrir sitios paradisíacos y muy cercanos que son desconocidos precisamente por sus dificultades de acceso a los barcos mayores

el pediatra y navegante cántabro Álvaro gonzález de aledo cuenta en este libro la navegación que realizó a la isla de elba y el archipiélago toscano en el corto maltés su pequeño velero de serie de seis metros de eslora volviendo a españa por el río ródano y los canales del sur de francia fue un viaje lleno de incidentes desde el primer día durante el transporte por carretera al mediterráneo durante la navegación con abundantes golpes de mistral y hasta los últimos días con averías del fueraborda que estuvieron a punto de hacerle abandonar hasta tal punto se concentraron en este viaje los problemas que el autor consideró que murphy se le había colado de polizón y fue haciendo un tanteo de las veces en que este le asestaba un golpe frente a las veces que le sonreía la fortuna de forma inesperada y con independencia del resultado final considera que la navegación en barcos pequeños y con escaso presupuesto continúa siendo una de las formas más simples de descubrir el mundo y la felicidad sencilla en este libro en vez de dibucartas o dibupoemas ha incrustado en el texto dibufirmas el más difícil todavía de convertir las letras en dibujos ha hecho sus siluetas con las letras de una sola palabra y por tratarse de un libro de náutica dibujos de los barcos más variados y siempre con el nombre de los puertos en los que recaló otra forma original y atípica de que el lector disfrute con él de cada escala el libro está prologado por los navegantes trans mundistas isabel navarro y guillermo cabal que en su velero tin tin están dando la vuelta al mundo a vela
