hymns and the music the church sings in worship are tangible means of expressing worship and while worship is one of
if not the central functions of the church along with mission service education justice and compassion and occupies a
prime focus of our churches a renewed sense of awareness to our theological presuppositions and cultural cues must
be maintained to ensure a proper focus in worship hymns and hymnody historical and theological introductions is a
sixty chapter three volume introductory textbook describing the most influential hymnists liturgists and musical
movements of the church this academically grounded resource evaluates both the historical and theological
perspectives of the major hymnists and composers who have impacted the church over the course of twenty centuries
volume 1 explores the early church and concludes with the renaissance era hymnists volume 2 begins with the
reformation and extends to the eighteenth century hymnists and liturgists volume 3 engages nineteenth century
hymnists to the contemporary movements of the twenty first century each chapter contains these five elements
historical background theological perspectives communicated in their hymns compositions contribution to liturgy and
worship notable hymns and bibliography the mission of hymns and hymnody is 1 to provide biographical data on
influential hymn writers for students and interested laypeople and 2 to provide a theological analysis of what these
composers have communicated in the theology of their hymns we believe it is vital for those involved in leading the

worship of the church to recognize that what they communicate is in fact theology this latter aspect we contend is missing yet important in accessible formats for the current literature
