create high quality attention getting powerpoint presentations quickly and easily with this solutions packed guide make slides and effectively convey your message through text graphics and multimedia for show stopping presentations

although a growing body of research demonstrates the need for education to adapt to the needs of the net generation research also shows that traditional teaching methods continue to dominate the classroom to stay effective higher education must adapt to the needs of this unique generation of digital natives who grew up with computer technologies and social media teaching learning and the net generation concepts and tools for reaching digital learners provides pedagogical resources for understanding digital learners and effectively teaching and learning with today s generation of digital natives this book creates a much needed resource that moves beyond traditional disciplinary and geographical boundaries bridges theories and practice and addresses emerging issues in technology and pedagogy

imagine if a student spent as much time managing information as celebrities doted on dieting while eating too much food may be the basis of a moral panic about obesity excessive information is rarely discussed as a crisis of a similar scale obviously plentiful and high quality food is not a problem if eating is balanced with exercise but without the skills of media and information literacy students and citizens wade through low quality online information that fills their day yet does not enable intellectual challenge imagination and questioning digital dieting from information obesity to intellectual fitness probes the social political and academic difficulties in managing large quantities of low quality information but this book does not diagnose a crisis instead digital dieting provides strategies to develop intellectual fitness that sorts the important from the irrelevant and the remarkable from the banal in april 2010 and for the first time facebook received more independent visitors than google increasingly there is a desire to share rather than search but what is the impact of such a change on higher education if students complain that the reading is too hard then one response is to make it easier if students complain that assignments are too difficult then one way to manage this challenge is to make the assignments simpler both are passive responses that damage the calibre of

education and universities in the long term digital dieting from information obesity to intellectual fitness provides active conscious careful and applicable strategies to move students and citizens from searching to researching sharing to thinking and shopping to reading

this was written for teachers who want to use powerpoint in the classroom to enhance your presentations teach your students how to use the application and create interactive educational projects

it is a commonplace in educational policy and theory to claim that digital technology has transformed the university the nature of learning and even the essence of what it means to be a scholar or a student however these claims have not always been based on strong research evidence what are students and scholars actually doing in the day to day life of the digital university this book examines in detail how the world of the digital interacts with texts artefacts devices and humans in the contemporary university setting weaving together perspectives from a range of thinkers and disciplinary sources lesley gourlay draws on ideas from posthuman and new materialist theory in particular to open up our understanding about how digital knowledge practices operate she proposes that digital engagement in the university should not be regarded as virtual or disembodied but instead may be understood as a complex set of entanglements of the body texts and material artefacts making a case that agency and the ways in which knowledge emerges should be regarded as more than human

games for better brains use the secrets of brain science to improve communication interpersonal relations and productivity in any team or group jump start any training session workshop or retreat with dozens of interactive games that build brain function in fun and engaging ways the big book of brain building games offers all kinds of stimulating games to help your team improve information retention camaraderie and productivity and requires few or no props you ll learn what triggers to pull to help your group think and work better with these play anywhere crowd pleasing interactive games can your brain handle the fun speakers and facilitators know that if you don t engage participants every five to seven minutes you ll lose them the big book of brain building games adds the spark you need for a successful meeting and keeps your team alert and connected whatever the task with just a handful of materials required these brain boosting games will
