excerpt from hypnotism and hypnotic suggestion a scientific treatise on the uses and possibilities of hypnotism suggestion and allied phenomena it can be laid down as a fundamental principle that there is nothing unnatural or occult in the phenomena of hypnotism what may appear mysterious to us at present will be found to be quite in conformity with the laws of nature when the facts are more carefully determined the essential factors in most phenomena of hypnotism may be said to be first the production of a sleepy or dazed condition in which the subject is unusually sensitive to suggestions given by the hypnotized and second the giving of suggestions that are followed by actions hallucinations etc it is my belief that most of the phenomena of hypnotic suggestion can be produced in sane persons in a perfectly normal condition by merely choosing the appropriate suggestions about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the
