this book could serve as the module text in organisational communication for final year undergraduates postgraduates it is also a complete handbook for those whose task it is to carry out an audit

a lot more eq and a lot less compliance the role of an auditor is not for the faint hearted some people fear us for the changes we may advocate the costs sometimes associated with picking up inconsistencies and errors in how things are done according to what s right and others may see us as nothing more than a terrible nuisance in whatever way we are viewed whether by managers junior staff members or trainers our role is increasingly important in the world of not for profits government agencies and health services what has become apparent for many of us in this industry is that some outdated thinking has failed to develop our emotional intelligence as we go about our work fear is what holds back critical thinking and common sense fear of making mistakes and not crossing off the right points on a checklist regardless of how effective they are is the difference between someone keeping their job or not in some instances fear is also the reason for change being slow to take hold where it is often needed the most this book will make you think and rethink everything you thought you knew about the profession of auditing

a comprehensive and authoritative reference on the principles and processes for regulating healthcare professionals in operations of regulators of healthcare professionals renowned international regulator marc seale delivers an authoritative discussion on the operations of healthcare regulators addressing the administration and management of regulators communication governance and standards for regulators this comprehensive reference work examines all components of the regulators of healthcare professionals providing clear definitions and analysis lacking in the existing literature on the subject and offers a practical guide for understanding a complex regulatory landscape readers will also
