decades of research point to the need for a universal preschool education program in the u s to help give our nation s children a sound cognitive and social foundation on which to build future educational and life successes in addition to enhanced school readiness and improved academic performance participation in high quality preschool programs has been linked with reductions in grade retentions and school drop out rates and cost savings associated with a diminished need for remedial educational services and justice services this 2006 book brings together nationally renowned experts from the fields of psychology education economics and political science to present a compelling case for expanded access to preschool services they describe the social educational and economic benefits for the nation as a whole that may result from the implementation of a universal preschool program in america and provide guiding principles upon which such a system can best be founded

an eye opening look inside pre k in america and what it will take to give all children the best start in school possible at the heart of this groundbreaking book are two urgent questions what do our young children need in the earliest years of school and how do we ensure that they all get it cutting edge research has proven that early childhood education is crucial for all children to gain the academic and emotional skills they need to succeed later in life children who attend quality pre k programs have a host of positive outcomes including better language literacy problem solving and math skills down the line and they have a leg up on what appears to be the most essential skill to develop at age four strong self control but even with this overwhelming evidence early childhood education is at a crossroads in america we know that children can and do benefit but we also know that too many of our littlest learners don t get that chance millions of parents can t find spots for their children or their preschoolers end up in poor quality programs with engrossing storytelling journalist suzanne bouffard takes us inside some of the country s best pre k classrooms to reveal the sometimes surprising ingredients that make them work and to understand why some programs are doing the opposite of what is best for children it also chronicles the stories of families and teachers from many backgrounds as they struggle to give their children a good start in school this book is a call to arms when we are at a crucial moment and perhaps on the verge of a missed opportunity we now have the means and the will to have universal pre kindergarten but we are also in grave danger of not getting it right

teaching leading and learning encourages pre service and in service teachers to question the why what when and how of instructional strategies the text combines theory and current research with practice in order to help teachers understand the performances dispositions and knowledge base required for success teachers are encouraged to consider the big picture variables professional development teachers as leaders the intangibles of teaching parents and families and working creatively within the system
