backs up anecdotal studies of creativity with up to date information about the latest research into brain function a fascinating book
anthony storr author of solitude a return to self in these accelerated times our decisive and businesslike ways of thinking are unprepared for ambiguity and paradox and we ve lost our appreciation for the value of sleeping on it we assume that the quick thinking hare brain will beat out the slower intuition of the tortoise mind but new research in cognitive science is changing

this understanding of human mental processes it suggests that patience and confusion not rigor and certainty are the essential precursors of wisdom with a compelling argument that the mind works best when we trust our unconscious or undermine psychologist guy claxton makes an appeal that we be less analytical and let our creativity have free rein he also encourages reevaluation of society's obsession with results oriented thinking and problem solving under pressure packed with interesting anecdotes a dozen puzzles to test your reasoning and the latest related research hare brain tortoise mind is an illuminating uplifting stimulating read that focuses on a new kind of well being and cognition the essential guide to creative thinking john cleese his multidisciplinary approach is beautifully executed kirkus reviews counterintuitive provocative while claxton speaks the language of cognitive science his ideas resonate with freud's description of the unconscious buddhist concepts of the divine ground of existence and the great romantic poets notions of the fount of creativity publishers weekly

using a compelling argument that the mind works best when people trust their unconscious or undermines psychologist claxton makes an appeal to readers to be less analytical and let their creativity have free rein

and now for something completely different professor at large features beloved english comedian and actor john cleese in the role of ivy league professor at cornell university his almost twenty years as professor at large has led to many talks essays and lectures on campus this collection of the very best moments from cleese under his mortarboard provides a unique view of his endless pursuit of intellectual discovery across a range of topics since 1999 cleese has provided cornell students and local citizens with his ideas on everything from scriptwriting to psychology religion to hotel management and wine to medicine his incredibly popular events and classes including talks workshops and an analysis of a fish called wanda and the life of brian draw hundreds of people he has given a sermon at sage chapel narrated prokofiev's peter and the wolf with the cornell chamber orchestra conducted a class on script writing and lectured on psychology and human development each time cleese has visited the campus in ithaca ny he held a public presentation attended and or lectured in classes and met privately with researchers from the archives of these visits professor at large includes an interview with screenwriter william goldman a lecture about creativity entitled hare brain tortoise mind talks about professor at large and the life of brian a discussion of facial recognition and cleese's musings on group dynamics with business students and faculty professor at large provides a window into the workings of john cleese's scholarly mind showcasing the wit and intelligence that have driven his career as a comedian while demonstrating his knack of pinpointing the essence of humans and human problems his genius on the screen has long been lauded now his academic chops get their moment in the spotlight too

recent studies have shown that innovation is seen as key to achieving organic growth and building brand value within a company drawing on extensive market research business gurus fons trompenaars and peter woolliams outline effective innovation strategies for companies of all sizes

a book for the interface workers dust or magic was primarily written for the young talented people whose creative instincts are kindled by computers and live to create good stuff but who are systematically betrayed by the managerial types in suits who hire them set them absurd tasks and sack them when their half baked schemes go belly up it is also for people who simply want to know how human creativity fares in the digital age originally published by addison wesley under the title dust or magic secrets of successful multimedia design this book is in part a secret history of computers a history told from the vantage point of the people who did the work we have insiders accounts of a range of influential products and projects many of which were in danger of being forgotten the scene is illuminated by recent insights into creativity and well being from the fields of psychology and neuroscience as well as tried and tested practical strategies for workplace survival from other industries the author bob hughes has been a creative for most of his working life first a calligrapher then an advertising artist and copywriter before discovering computers in the mid 1980s he now teaches at oxford brookes university on the ma in interactive media publishing and researches and writes about the wider impact of electronics and computers in workplaces world wide he also campaigns on behalf of migrants refugees and all precarious workers what you are doing is stripping away the corporate bullshit from this revolution its ours not theirs reclaim the pixels chris mcevoy creator of usability must die usabilitymustdie.com there are many books explaining why software projects go sour this one breaks the mold by showing how they come good malcolm cook senior lecturer in human factors university of abertay it was incredibly engrossing i expected to skim through it and found myself reading it avidly putting aside all the other work i should have been doing it rang so true about so many things about the process of creating the virtual world we spend so much time in that i m dying to share it with others who also create for it or want to aleen stein co founder of the voyager company and ceo of organa inc organa.com more information on idhub.com magic

this comprehensive work provides a treasure trove of ways to seek find and use the power of will to gain an advantage over one s opponents in mental conflicts will has been and always will be the basis for succeeding in any conflict or competition to win in a conflict or competition decision makers must comprehend the meaning and implications of will and successfully transform theories about it into practice in the 21st century it is especially important for military leaders and security professionals to comprehend will in sufficient depth to enable them to impose their will on other resisting entities and learn how to block or parry their adversaries efforts to impose

their will on them this book will go a long way in helping decision makers achieve these goals each chapter in this book addresses one of 14 elements that will help readers to use will successfully over their adversaries life force purpose strength of motive capabilities determination perseverance sacrifice passion advantage disadvantage imposition action assessment and adaptation the book also provides readers with 18 considerations that will serve them well in all types of conflicts this book will be particularly beneficial to decision makers in the military law enforcement and business as well as attorneys and judges

offering a set of approaches to help boost innovation in organizations this book presents in depth research on topics including adaptation and flexibility tasks goals loyalty and commitment

the moral premise harnessing virtue and vice for box office success reveals the foundational concept at the heart of all successful box office movies and other stories it is a principle that has been passed down from ancient times it is a principle that modern research has shown is in all great stories that connect with audiences if you ignore this principle your story is doomed but if you consistently apply it to each character scene and dramatic beat it is the principle that will empower your storytelling and illuminate all the other techniques you bring to the craft it is the guiding principle of writing that allows films and all stories to be great

a pathbreaking critique of the thought of military studies icon carl phillip gottfried von clausewitz and his magnum opus on war that illuminates why and how that work should be viewed as much more mature coherent innovative and complete than suggested by previous accounts

the essential interaction design guide fully revised and updated for the mobile age about face the essentials of interaction design fourth edition is the latest update to the book that shaped and evolved the landscape of interaction design this comprehensive guide takes the worldwide shift to smartphones and tablets into account new information includes discussions on mobile apps touch interfaces screen size considerations and more the new full color interior and unique layout better illustrate modern design concepts the interaction design profession is blooming with the success of design intensive companies priming customers to expect design as a critical ingredient of marketplace success consumers have little tolerance for websites apps and devices that don't live up to their expectations and the responding shift in business philosophy has become widespread about face is the book that brought interaction design out of the research labs and into the everyday lexicon and the updated fourth edition continues to lead the way with ideas and methods relevant to today's design practitioners and developers updated information includes

contemporary interface interaction and product design methods design for mobile platforms and consumer electronics state of the art interface recommendations and up to date examples updated goal directed design methodology designers and developers looking to remain relevant through the current shift in consumer technology habits will find about face to be a comprehensive essential resource

the essays in this collection deal with contemporary irish poetry and the question of the desiring body as a cultural and historical product a biological entity and a psycho sexual construction and not least as an existential being drawing upon the literary theories of among others the french post structuralists the psychoanalytic theories of lacan and kristeva the philosophies of merleau ponty and levinas and feminist philosophers such as donna haraway and susan bordo the contributors explore how contemporary irish poets both male and female give expression to what might be termed a reassessment of material experience with their various approaches they address the various ways in which the body can be seen as an agent of empowerment and change in the work of eavan boland ciaran carson mary dorsey seamus heaney rita ann higgins thomas kinsella michael longley derek mahon medbh mcguckian paula meehan john montague paul muldoon eilean ni chuilleannain and nuala ni dhomhnaill

youth at risk provides tested prevention techniques from individual family school and community perspectives for work with diverse populations drawing on the wisdom of 24 experts the fourth edition contains concrete advice for creating and maintaining environments in which children and adolescents can flourish topics discussed include casual factors of destructive behavior dysfunctional family dynamics resilience stress depression counseling a queer youth violence eating disorders pregnancy suicide aids and gang membership

from the pfp website the consortium is providing a family of publications covering the full range of security studies to an international standard of excellence serving the military civilian and academic needs of the consortium membership currently this family includes quarterly journal athena papers bulletins information papers
