for well over one hundred years society had considered ways of helping prisoners on their release from prison but there had been no serious attempt to assess in a scientific manner the value of such efforts originally published in 1974 this book broke with this tradition and was the first full scale work published in this country evaluating carefully whether an active policy of finding suitable employment for men immediately on their release from prison had beneficial results the first part of the book discusses the historical development of prison after care from its early origins in the nineteenth century and indicates how up to the second world war the primary object of after care had been regarded as the reinstatement of the ex prisoners in employment gradually the specific task of finding jobs for ex prisoners had become a peripheral activity considered as the responsibility of the department of employment the effectiveness of the department's pre release procedure for prisoners is discussed the rest of the book considers the fascinating apex project set up to examine the effectiveness of finding work for ex prisoners the work of apex continued to develop and expand but the present study considers the first five years when over four hundred men were randomly selected from two london prisons and offered the services of a specialist employment agency the outcome for these men is compared with a

control group of over three hundred men randomly selected from the same prisons this study is concerned with the general run of the prison population and interestingly shows how some prisoners accept and others reject the offer of an employment service it further indicates the enormous efforts sometimes needed to find suitable employment for prisoners on release the outcome of the job interviews arranged in terms of the proportions attending the interviews starting the jobs and the length of time men stayed in the jobs arranged is vital reading for anyone involved in after care an important part of the work is the examination of the subsequent reconviction rates for the various groups of offenders and the implication that it seems possible to predict men who are unlikely to be helped by the simple provision of employment on release the final chapter considers critically some of the assumptions upon which the apex project was based and the possible use of computer techniques in the individualization of treatment is briefly discussed the author was particularly well qualified to discuss this subject for apart from his work over a number of years with several after care organizations the present project involved working in prisons for over three years as well as interviewing and talking to men after their release the findings of this study will interest the wide variety of people concerned with prison after care criminologists sociologists probation officers and all others working in prisons and after care will recognize the important implications of the material presented in this book

traditional histories of the korean war have long focused on violations of the thirty eighth parallel the line drawn by american and soviet officials in 1945 dividing the korean peninsula but the interrogation rooms of the korean war presents an entirely new narrative shifting the perspective from the boundaries of the battlefield to inside the interrogation room upending conventional notions of what we think of as geographies of military conflict monica kim demonstrates how the korean war evolved from a fight over territory to one over human interiority and the individual human subject forging the template for the u s wars of intervention that would predominate during the latter half of the twentieth century and beyond kim looks at how during the armistice negotiations the united states and their allies proposed a new kind of interrogation room one in which pows could exercise their free will and choose which country they would go to after the ceasefire the global controversy that erupted exposed how interrogation rooms had become a flashpoint for the struggles between the ambitions of empire and the demands for decolonization as the aim of interrogation was to produce subjects who attested to a nation s right to govern the complex web of interrogators and prisoners japanese american interrogators indian military personnel korean pows and interrogators and american pows that kim uncovers contradicts the simple story in u s popular memory of brainwashing during the korean war
