this work offers an examination of manchester s architecture from its origins to the present day rebuilding of the city centre it follows manchester s growth from a village to what many see as england s second city

a comprehensive introduction to architecture and architectural history and exceptional in its approach this book explores architecture in relation to history and the wider context of cultures conservation and the environment

how do we think about architecture historically and theoretically forty ways to think about architecture provides an introduction to some of the wide ranging ways in which architectural history and theory are being approached today the inspiration for this project is the work of adrian forty professor of architectural history at the bartlett school of architecture university college london ucl who has been internationally renowned as the uk's leading academic in the discipline for 40 years forty's many publications notably *Objects of Desire* 1986 *Words and Buildings* 2000 and *Concrete and Culture* 2012 have been crucial to opening up new approaches to architectural history and theory and have helped to establish entirely new areas of study his teaching at the bartlett has enthused a new generation about the exciting possibilities of architectural history and theory as a field this collection takes in a total of 40 essays covering key subjects ranging from memory and heritage to everyday life building materials and city spaces as well as critical theory philosophy literature and experimental design it refers to more immediate and topical issues in the built environment such as globalisation localism regeneration and ecologies concise and engaging entries reflect on architecture from a range of perspectives contributors include eminent historians and theorists from elsewhere such as jean louis cohen briony fer hilde heyne mary mcLeod griselda pollock penny sparke and anthony vidler as well as forty's colleagues from the bartlett school of architecture including iain borden murray fraser peter hall barbara penner jane rendell and andrew saint forty ways to think about architecture also features contributions from distinguished architects such as tony fretton jeremy till and sarah wigglesworth and well known critics and architectural writers such as tom dyckhoff william menking and thomas weaver many of the contributors are former students of adrian forty through these diverse essays readers are encouraged to think about how architectural history and theory relates to their own research and design practices thus using the work of adrian forty as a catalyst for fresh and innovative thinking about architecture as a subject

how much do you know about greek architecture roman gothic the renaissance modernism perhaps more importantly do you know how these are connected or how one style evolved to become another or what happened historically during each of these periods architectural history retold is your roadmap for your journey through architectural history offering a fresh take on what the author calls the great enlightenment project it traces the grand narrative of western architecture in one concise accessible volume starting in ancient greece and leading up to the present day paul davies unconventional engaging style brings the past back to life helping you to think beyond separate components and styles to recognise the bigger picture the author is an academic and journalist with three decades of experience in introducing students to architectural history the book is based on his successful entry level course which has used the same unstuffy approach to break down barriers to understanding and engagement and inspire generations of students

how do historians of architecture organize past time and relate it to the present how does historical evidence translate into historical narrative should architectural history be useful for practising architects if so how leach treats the disciplinarity of architectural history as an open question moving between three key claims upon historical knowledge of architecture within art history as a historical specialization and most prominently within architecture back cover

key modern architects provides an accessible and thought provoking introduction to the work of the most significant architects of the modern era fifty short chapters introduce fifty key architects from le corbusier to aldo van eyck to zaha hadid exploring their most influential buildings and developing a critique of each architect's work within a broader cultural and historical context the selection represents the most influential architects working from 1890 to the present those most likely to be taught on survey courses in modern architectural history along with some lesser known names with an equal claim to influence emphasis is placed on a critical and interpretative approach allowing the student to position each architect in a cultural and intellectual context quickly and easily artistic technical social and intellectual developments are brought to the fore built and unbuilt projects writings and influences this approach brings to light the ideology behind architectural work offering insights into each architect's working practice helps students to develop a critical approach to understanding modern architectural history one chapter per architect meaning chapters may be read individually as a concise resource for the study of an architect or together as a coherent book length history of the whole period of modern architecture chapters are supported by boxed lists of each architect's most significant projects along with suggestions for further reading as a springboard to further study and research combining the clarity and accessibility of a textbook with in depth reading and a critical approach key modern architects provides an invaluable resource for both the classroom and for independent study in architectural and art history

first published in 1986 the architectural history of king's college chapel provides a complete picture of how and why king's college chapel came to be built francis woodman uses the evidence both of structure and style and finance and patronage to present the organisation and mechanics of the structural campaigns spread over more than seventy years he proposes a completely new sequence of constructions from that hitherto accepted together with clear evidence of changes in policy concerning the intention to vault the chapel part way through construction the book also contains the first complete analysis of the remarkable tudor building accounts and their significance for the study of mediaeval architectural history king's college chapel is placed within the context of the contemporary architecture in both england and france and for the first time english late mediaeval architecture is considered and presented as one part of a wider european movement this book is a must read for scholars and researchers of british architecture and architectural history

excavations at pompeii have been going on for more than two centuries since 1748 and discoveries there have regularly produced new and important information about ancient roman life the site holds a rich concentration of municipal buildings houses of every size and condition villas and tombs now in paperback the first book of this century written in english devoted to pompeian architecture and urban development tells the story of the city and its buildings with text and illustrations I richardson jr portrays pompeii in context as a keystone in the architectural history of antiquity pompeii's life was comparatively short from its meteoric rise as a seaport and shipbuilding center during the first punic war until its abrupt destruction with the eruption of vesuvius in a d 79 the city passed through four major building periods after a general introduction to pompeii's history and geography the book proceeds through each period discussing its public buildings private buildings and tombs each building is described and placed according to its importance in the development of its particular architectural form richardson offers new

dates and arrives at new conclusions about the development of such important features as the city plan fortifications and the atrium peristyle house fifty ground plans and twenty five photographs illustrate the text there has long been a need for a comprehensive account in english of the architecture and urban development of pompeii richardson s book makes a valiant effort to remedy the deficiency and will be particularly welcome to all students of roman architecture classical review

this volume examines the historiographic and socio cultural implications of the mapping of british architectural history with particular reference to 18th and 19th century britain

over the past two decades scholarship in architectural history has transformed moving away from design studio pedagogy and postmodern historicism to draw instead from trends in critical theory focusing on gender race the environment and more recently global history connecting to revisionist trends in other fields with examples across space and time from medieval european coin trials and eighteenth century haitian revolutionary buildings to weimar german construction firms and present day african refugee camps writing architectural history considers the impact of these shifting institutional landscapes and disciplinary positionings for architectural history contributors reveal how new methodological approaches have developed interdisciplinary research beyond the traditional boundaries of art history departments and architecture schools and explore the challenges and opportunities presented by conventional and unorthodox forms of evidence and narrative the tools used to write history

praise for the first edition because of its exceptionally wide perspective even architectural historians who do not teach general survey courses are likely to enjoy and appreciate it annali d architettura not only does a global history of architecture own the territory of world architecture it pulls off this audacious task with panache intelligence and for the most part grace journal of the society of architectural historians revised and updated the compelling history of the world s great architectural achievements organized along a global timeline a global history of architecture second edition has been updated and revised throughout to reflect current scholarship spanning from 3 500 b c e to the present this unique guide is written by an all star team of architectural experts in their fields who emphasize the connections contrasts and influences of architectural movements throughout history the architectural history of the world comes to life through a unified framework for interpreting and understanding architecture supplemented by rich drawings from the renowned frank ching as well as brilliant photographs this new second edition delivers more coverage of non western areas particularly africa south asia south east asia and pre columbian america is completely re designed with full color illustrations throughout incorporates additional drawings by professor ching including new maps with more information and color meets the requirements set by the national architectural accrediting board naab for non western architecture in history education offers new connections to a companion site including google earthtm coordinates for ease of finding sites architecture and art enthusiasts will find a global history of architecture second edition perpetually at their fingertips

it is all here palladian mansions some of the country s earliest and finest gothic revival churches the romantic stone cottages of the mid 1800s belle epoch mansions of the wealthy two of the few extant freedmen s bureau buildings in the nation and of course the urban tract housing of the mid twentieth century

for dolkart the experience of being raised in a tenement became a metaphor for the life that was afforded countless thousands of other immigrant children growing up in lower manhattan during the past century and more this book is a lasting tribute to the legacy of immigrants and their children who were part of the transformation of new york city and the fabric of everyday american urban life
