runways and racers focuses on sports car races held at military installations throughout america in the early 1950s it was a marriage of convenience for the sports car club of america and the strategic air command with both parties gaining advantages from the arrangement the thorn in the side turned out to be a congressman whose own aspirations exceeded his standing but who found himself in a position to be able to influence the outcome of events

this is the story of a man a team and their life and times as well as a complete record of all their achievements and failures it logs the financial and personal cost of racing in the prewar and postwar periods it tells of how the mighty car company renault became involved with them in the late 1950s and how amedeo gordini became known throughout the world as one of the greatest engine tuners of his time

this book focuses on the different aspects that contributed to

the development of northeast american sports car racing during the 1950s the evolution from amateur drivers racing on public roads in 1950 to both professional and amateur drivers racing at private purpose built tracks in 1959 demanded huge leaps of faith trust and understanding the transition was neither easy nor uneventful for drivers clubs or track owners and the tragedy politics and in

this manual takes a look inside a modern heavily automated car factory where every car produced is bespoke having been built specially to fulfill an individual customer s order it is a fascinating insight into the processes equipment and people involved behind the scenes in building a mini from initial design studies and body in white metal panels to completed car on the way to its new owner
