mar 2 2010 the correct way to do it is to provide a docstring that way help add will also spit out your comment

python does have a multiline string comment syntax in the sense that unless used as docstrings multiline strings generate no bytecode just like prepended comments

i was reading pep8 and some questions on stack overflow but i was wondering about spaces between comments let s say i have this code class mybrowser qwebpage settings for the browser

python does not have such a mechanism prepend a to each line to block comment for more information see pep 8 most python ides support a mechanism to do the block commenting with

aug 19 2021 triple quoted strings are used as comments by many developers but it is actually not a comment it is similar to regular strings in python but it allows the string to be multi line you will find

aug 19 2021 triple quoted strings are used as comment by many developers but it is actually not a comment it is similar to regular strings in python but it allows the string to be in multi line you will

sep 23 2017 to clarify my question is about when to use comments instead of docstrings python is opinionated and seems to want to docstrings for most all code description purposes that being

feb 14 2019 i have a python script that can be run completely standalone i somehow want to create a general description of what the script does in a comment what is the pythonic way of doing so is

in python the resource you are looking for is called doc string other people have suggested to read the documentation and i suggest to check this link sphinx project

jul 21 2014 is there a method of ending single line comments in python something like this is my comment some more code here
