alexander bogdanov 1873 1928 wrote the articles in this volume in the years before and during the revolution of 1905 when he was co leader with v i lenin of the bolshevik faction of the russian social democratic labour party and was active in the revolution and the struggle against marxist revisionism in these pieces bogdanov defends the principles of revolutionary social democracy on the basis of a neutral monist philosophy empiriomonism the idea of the invariable regularity of nature and the use

of the principle of selection to explain social development the articles in on the psychology of society 1904 06 discredit the neo kantian philosophy of russia s marxist revisionists rebut their critique of historical materialism and develop the idea that labour technology determines social consciousness new world 1905 envisions how humankind will develop under socialism and bogdanov s contributions to studies in the realist worldview 1904 05 defend the labour theory of value and criticise neo kantian sociology

a new introduction to american studies provides a coherent portrait of american history literature politics culture and society and also deals with some of the central themes and preoccupations of american life it will provoke students into thinking about what it actually means to study a culture ideals such as the commitment to liberty equality and material progress are fully examined and new light is shed on the sometimes contradictory ways in which these ideals have informed the nation s history and culture for introductory undergraduate courses in american studies american history and american literature

climate change is one of the most pressing problems facing the global community although most states agree that climate change is occurring and is at least partly the result of humans reliance on fossil fuels managing a changing global climate is a formidable challenge underlying this challenge is the fact that states are sovereign governed by their own laws and regulations sovereignty requires that states address global problems such as climate change on a voluntary basis by negotiating international agreements despite a consensus on the need for global action many questions remain concerning how a meaningful international climate agreement can be realized this book brings together leading experts to speak to such questions and to offer promising ideas for the path toward a new climate agreement organized in three main parts it examines the potential for meaningful

climate cooperation part 1 explores sources of conflict that lead to barriers to an effective climate agreement part 2 investigates how different processes influence states prospects of resolving their differences and of reaching a climate agreement that is more effective than the current kyoto protocol finally part 3 focuses on governance issues including lessons learned from existing institutional structures the book is unique in that it brings together the voices of experts from many disciplines such as economics political science international law and natural science the authors are academics practitioners consultants and advisors contributions draw on a variety of methods and include both theoretical and empirical studies the book should be of interest to scholars and graduate students in the fields of economics political science environmental law natural resources earth sciences sustainability and many others it is directly relevant for policy makers stakeholders and climate change negotiators offering insights into the role of uncertainty fairness policy linkage burden sharing and alternative institutional designs

although covenant is a major theme in hebrews morrison contends all mention of covenant can be deleted without damaging the coherence of the epistle or its christological conclusions what role then does the covenant motif have in the epistle the arguments in hebrews are aimed at a jewish audience they ignore the needs and religious options relevant to gentiles for the readers the sinai covenant was the only relevant conceptual competitor to christ first century jews looked to the abrahamic and mosaic covenants as the basis of their obligations to god and god s promises toward them although most jewish writers merged these covenants as if they were one the author of hebrews does not he retains the abrahamic promises while arguing that the mosaic covenant is obsolete the covenant concept supports the exhortations of hebrews in two ways 1 it provides the link between priesthood worship rituals and other laws and 2 it enables the author to argue for

allegiance to the community as allegiance to christ

scientific study from the year 2025 in the subject ethnology cultural anthropology language english abstract many mayanists challenge diego de landa s statement that the maya had an extra day at the end of every 4th year puuc style data lead to the yucatecan calendar with corrections of the second and third order to the vague solar calendar year this by switching patronages after two calendar rounds and by a jump over a patronage after four double calendar rounds each calendar round was counted by 52 vague years while the corrections the intercalary days were lived and administered by the ritual calendar in hiding in the back ground for an eternal solar calendar year the first correction every 4th year is requested and had been provided it seems as stated by d de landa the patronages from the start of the reform to the conquest were kaban ben muluk chikchan kib was skipped eb lamat kan in order to distinguish the two calendar rounds of a pair the first was counted by current time as ordinal numbers and the second by elapsed time as cardinal numbers the calendar reform was completed by two switches in the long time count at first by the one of the elapsed time undercount long count to the current time overcount short count and later by the one from 20 tun to 24 haab making the calendar only dependent on the cycle of the sun with this step the calendar priests of the rio bec chenes and puuc region implemented the very first eternal solar calendar by 1140 about 450 years earlier then the one by pope gregory xiii for the yucatecan calendar exist two nodal points of early colonial time the year ah pula died and the year merida was founded based upon these dates a new correlation for the yucatecan and all maya calendars and the christian is given as far as the years are concerned for the days in the year d de landa s other statement of the calendar is applied the maya started the year on july 16th of the julian calendar this correlation yields dates in the christian calendars 80 years earlier than by the g m t
