democratic government is about making choices sometimes those choices involve the distribution of benefits at other times they involve the imposition of some type of loss a program cut increased taxes or new regulatory standards citizens will resist such impositions if they can or will try to punish governments at election time the dynamics of loss imposition are therefore a universal if unpleasant element of democratic governance the government taketh away examines the repercussions of unpopular government decisions in canada and the united states the two great democratic nations of north america pal weaver and their contributors compare the capacities of the u s presidential system and the canadian westminster system to impose different types of losses symbolic losses gun control and abortion geographically concentrated losses military base closings and nuclear waste disposal geographically dispersed losses cuts to pensions and to health care and losses imposed on business telecommunications deregulation and tobacco control theory holds that westminster style systems should all things being equal have a comparative advantage in loss imposition because they concentrate power and authority though this can make it easier to pin blame on politicians too the empirical

findings of the cases in this book paint a more complex picture westminster systems do appear to have some robust abilities to impose losses and us institutions provide more opportunities for loss avoiders to resist government policy in some sectors but in most sectors outcomes in the two countries are strikingly similar the government taketh away is essential for the scholar and students of public policy or comparative policy it is also an important book for the average citizen who wants to know more about the complexities of living in a democratic society where the government can give but how it can also sometimes painfully taketh away

the health care system in canada is much discussed in the international sphere but often overlooked when it comes to its highly decentralized administration and regulation health systems in transition canada provides an objective description and analysis of the public private and mixed components that make up health care in canada today including the federal provincial intergovernmental and regional dynamics within the public system gregory p marchildon s study offers a statistical and visual description of the many facets of canadian health care financing administration and service delivery along with relevant comparisons to five other countries systems this second edition includes a major update on health data and institutions a new appendix of federal laws concerning select provincial and territorial medicare legislation and for the first time a comprehensive and searchable index it also provides a more complete assessment of the canadian health system based on financial protection efficiency equity user experience quality of care and health outcomes balancing careful assessment summary and illustration health systems in transition canada is a thorough and illuminating look at one of the nation s most complex public policies and associated institutions
