peter gray's evolutionary perspective and emphasis on critical thinking have made his rigorous yet accessible introduction to psychology a widely respected classroom favourite edition after edition now thoroughly revised with the help of co author david bjorklund psychology invites and stimulates students to investigate the big ideas in psychological science psychology can also be purchased with the breakthrough online resource launchpad which offers innovative media content curated and organised for easy assignability launchpad's intuitive interface presents quizzing flashcards animations and much more to make learning actively engaging

this modular version of myers's full length text psychology reflects the author's research supported belief that many students learn better using a text comprised of brief modules as opposed standard length chapters psychology eighth edition in modules breaks down the 18 chapters of psychology into 58 short modules retaining that acclaimed text's captivating writing superior pedagogy and wealth of references to recent cutting edge research the modular version has its own extensive media and supplements package with content organized to match its table of contents

build a solid foundation for students to develop the skills and knowledge they need to progress with the updated edition of richard gross's best selling introduction to psychology this 8th edition of psychology the science of mind and behaviour is the essential guide to studying psychology helping over half a million students during its 30 years of publication easily access psychological theories and research with user friendly content and useful features including summaries critical discussion and research updates develop evaluative skills with new evaluation boxes encouraging students to put classic and contemporary studies into context consolidate understanding by identifying

common misconceptions stay up to date with revised content and the latest psychological research understand the research process with updated contributions from leading psychologists including elizabeth loftus alex haslam and david canter

revised edition of the authors psychology 2012

throughout the history of psychology there have been full investigations of discrete emotions particularly negative ones and a recent wealth of books on happiness but few exist on the emotion of joy this book takes a unique psychological approach to understanding this powerful emotion and provides a framework within which the study of human joy and other related positive fulfillment experiences can fit in a meaningful schema a key feature of this book is its development of an experiential phenomenology of joy this phenomenology is based on more than three hundred descriptions of joy experiences recounted by subjects in an empirical study executed by the author types of joy experiences are examined such as excited vs serene joy anticipatory vs completed joy and affiliative vs individuated joy there is no comparable book or work that clarifies the relationship among major positive states with emotional components including satisfaction happiness and ecstasy

this engaging and practical book addresses the multitude of ways in which school employed psychological service providers such as school counselors school psychologists and school social workers can support the learning behavioral and mental health needs of students in school settings psychology in the schools offers vignette examples to apply content to real world context and provides a variety of resources including worksheets and templates for practitioners to use in practice chapter content covers foundations in psychological services in schools e g the hidden curriculum of school systems professional standards of practice consultation and collaboration and assessment an overview of social emotional behavioral and academic supports across tiers of service delivery and skills for practitioners to thrive e g burnout prevention this text is ideal for an upper level undergraduate course or an introductory graduate level course early career practitioners and supervisors alike can also benefit from the tools and resources that this book provides

this book offers a behavioral science perspective on how scientific practice becomes compromised and provides recommendations for improvement broadening the discussion of research integrity beyond replication publication biases statistics and methods this book addresses the full complexity of the issue and serves academics and policy makers who are concerned with the reliability and validity of scientific findings across the social sciences

many factors affect treatment options for children and adolescents with mental health problems including age severity of symptoms financial and time constraints and access to qualified professionals with the limitations of managed care plans and the shrinking pool of pediatric psychiatrists the trend is toward pediatricians prescribing psychotropic medicines pharmacologically trained psychologists can offer valuable assistance to pediatricians caught in this predicament tackling fundamental questions of when to treat as well as when and why to refer young patients the pediatricians and pharmacologically trained psychologists examines commonly occurring pediatric conditions requiring joint treatment reviews theoretical models of consultation and collaboration and spotlights professional issues typically arising from these team efforts with pertinent clarity and detail this volume offers in depth discussion in these key areas collaborative treatment of mental health conditions including mood disruptive anxiety and eating disorders collaborative treatment of medical conditions focusing on gastrointestinal disorders and diabetes changing clinical procedures in states that have enacted prescriptive authority for psychologists expanding roles for pharmacologically trained psychologists practicing in states that have not enacted prescriptive authority for psychologists medical psychology in the pediatric hospital integrative care in rural settings and on the reservation the collaborative future brain marker technology training paradigms and more pediatricians and pharmacologically trained psychologists is a must have reference for a broad range of researchers professionals and graduate students including psychologists pediatricians and other child mental health clinicians as well as nonphysician prescribers such as nurses physician assistants and pharmacists
