may 28 2021 i have recently come across the code `gt` in `r` it is a vertical line character pipe followed by a greater than symbol

here is an example `mtcars |> head` what is the `gt` code

nov 25 2014 i have seen the use of `gt_percent` greater than `percent` function in some packages like `dplyr` and `rvest` what does it mean is it a way to write closure blocks in `r`

2 days ago r is a free open source programming language and software environment for statistical computing bioinformatics information graphics and general computing

a carriage return `r` makes the cursor jump to the first column begin of the line while the newline `n` jumps to the next line and might also to the beginning of that line

[illegible]

according to the r language definition the difference between `amp` and `amp amp` correspondingly and is that the former is vectorized while the latter is not according to the help

the infix operator is not part of base r but is in fact defined by the package `magrittr` cran and is heavily used by `dplyr` cran it works like a pipe hence the reference to `magritte` s famous
