excerpt from teacher s manual to accompany first year latin lesson i exact definitions need not be insisted on at first but the use of the terms may be shown through illustrations drawn from the lesson when the lesson is recited on the following day the grammatical terms should be used if a mistake is made by a pupil in the use of a term it should be corrected with a simple explanation thus if a boy calls columba a verb remind him that it is the name of something hence a noun later when the teacher thinks best pupils may be referred to the essentials and be required to learn definitions of terms with which they are already practically familiar it is more important for the pupil to recognize a sentence a noun a verb etc than to be able to define them pronunciation 3 with regard to the introduction on pronunciation it may be used solely for reference in which case the teacher may begin with lesson i or the teacher may devote one or two lessons wholly to pronunciation using for this purpose the poem on p 18 if the teacher uses the poem for preliminary practice it would be well to begin by reading slowly and distinctly the first line then call upon a pupil and then upon the whole class to repeat it treat the following lines in the same way call attention from time to time to the rules for quantity and accent be particular to give full value to each of the two l s in stella and similarly of all doubled letters say stel la bel la il lo gem ma etc avoiding the error of making one sound serve for two letters as we often do in english about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged
