the definitive reference for art lovers of any level of knowledge and understanding packed with paintings by popular and essential artists from all over the world this comprehensive new book is organized by era to reveal the development of art over time p 4 of cover

over two decades this art historical tour de force has consistently proved the classic introduction to humanity's artistic heritage from our paleolithic past to our digitised present every continent and culture is covered in an articulate and well balanced discussion in this seventh edition the text has been revised to embrace developments in archaeology and art historical research while the renowned contemporary art historian michael archer has greatly expanded the discussion of the past twenty years

providing a new perspective on the latest developments the insight elegance and fluency that the authors bring to their text are complemented by 1458 superb illustrations half of which are now in colour these images together with the numerous maps and architectural plans have been chosen to represent the most significant chronological regional and individual styles of artistic expression

the definitive reference for art lovers of any level of knowledge and understanding packed with paintings by popular and essential artists from all over the world this comprehensive new book is organized by era to reveal the development of art over time page 4 of cover

experience the uplifting power of art on this breathtaking visual tour of 2 500 paintings and sculptures created by more than 700 artists from michelangelo to damien hirst this beautiful book brings you the very best of world art from cave paintings to neoexpressionism enjoy iconic must see works such as leonardo da vinci s last supper and monet s waterlilies and discover less familiar artists and genres from all parts of the globe art that changed the world covers the full sweep of world art including the ming era in china and japanese hindu and indigenous australian art it analyses recurring themes such as love and religion explaining key genres from romanesque to conceptual art art that changed the world explores each artist s key works and vision showing details of their technique such as leonardo s use of light and shade it tells the story of avant garde works like manet s le dejeuner sur l herbe lunch on the grass which scandalized society and traces how one genre informed another showing how the impressionists were inspired by gustave courbet for example and how van gogh was influenced by japanese prints lavishly illustrated throughout look no further for your essential guide to the pantheon of world art

offers a story of art for the 21st century this book draws connections between different continents and cultures across the millennia

reproduction of the original the antigonos publishing house specialises in the publication of reprints of historical books we make sure that these works are made available to the public in good condition in order to preserve their cultural heritage

very few books try to capture a subject as vast as the world of art and even fewer succeed but robert payne has succeeded and in this book he portrays in vivid fresh nontechnical language the entire history and achievement of the world s artists from the

original caveman painters who decorated their homes with animal paintings to contemporary artists who fill their canvases with often bewildering abstract forms. Payne approaches each artistic period and each great artist with sympathetic understanding and an appreciation of the values and aesthetic ideals of the time through carefully chosen illustrations woven into his text. Moreover, he shows exactly what makes a work of art great. World of Art casts its view over all the types of art, not only the western tradition but the contributions of Egypt, Persia, India, China, Japan, and other important cultures as well. Yet the book is more than a mere survey. For Robert Payne's special brilliance lies in showing the common spirit and aspiration that have united all the world's great artists. The main value of this book is spontaneity; there is nothing pedantic about it, although it ranges all over the world of art from its earliest beginnings to the present. The author keeps the flow of his account moving at a rapid pace. Its importance is to offer a fast-paced critical reassessment of the history of art in terms of today's outlook. Mr. Payne relies chiefly on a beautiful use of language which enables him to telescope the essence of a culture or period into a few well-turned paragraphs. He gives the reader a dynamic reevaluation based on critical judgments and first-hand observations rather than a rehash of conventional academic views. Rather than the pedantic accuracy of an encyclopedia approach, Mr. Payne's book possesses the rare quality of persuasiveness and enthusiasm, and it will send the reader off to go and look. Henry A. La Farge, Senior Editor, Art News.

What do we mean by art as a category of objects? The concept belongs to a western cultural tradition, originally European and now increasingly global. But how useful is it for understanding other traditions? To understand art as a universal human value, we need to look at how the concept was constructed in order to reconstruct it through an understanding of the wider world. Western art values have a pervasive influence upon non-western cultures and upon western attitudes to them. This innovative yet accessible new text explores the ways theories of art developed as western knowledge of the world expanded through exploration and trade, conquest, colonisation, and research into other cultures, present and past. It considers the issues arising from the historical relationships which brought diverse artistic traditions together under the influence of western art values, looking at how art has been used by colonisers and colonised, in the causes of collecting and commerce, cultural hegemony and autonomous identities. World Art questions conventional western assumptions of art from an anthropological perspective which allows comparison between cultures. It treats art as a property of artefacts rather than a category of objects, reclaiming the idea of world art from the art world. This book is essential reading for all students on anthropology of art courses as well as students of museum studies and art history, based on a wide range of case studies and supported by learning features such as annotated further reading and chapter opening summaries.

this is the first work to treat the art of the whole world from prehistory to the present day through the extensive use of maps covering painting sculpture and architecture as well as other arts and artefacts the atlas provides an entirely new vision of the history of the world's art by showing how physical and political geography has shaped its developments instead of simply showing where and when great artists lived and worked or where major styles developed the atlas explains why these phenomena occurred this requires not only giving information on their political religious economic and cultural contexts but on the natural circumstances surrounding their emergence as well it also means charting the availability of raw materials such as pigments for colouring organized in seven chronological periods and with contributions from 67 internationally renowned art historians the atlas is original comprehensive and up to date enough to make it a benchmark reference work for many years to come

experience the uplifting power of art on this breathtaking visual tour of 2 500 paintings and sculptures created by more than 700 artists from michelangelo to damien hirst this beautiful book brings you the very best of world art from cave paintings to neoexpressionism enjoy iconic must see works such as leonardo da vinci's last supper and monet's waterlilies and discover less familiar artists and genres from all parts of the globe the art book covers the full sweep of world art including the ming era in china and japanese hindu and indigenous australian art it analyses recurring themes such as love and religion explaining key genres from romanesque to conceptual art the art book explores each artist's key works and vision showing details of their technique such as leonardo's use of light and shade it tells the story of avant garde works like manet's *le déjeuner sur l'herbe* lunch on the grass which scandalised society and traces how one genre informed another showing how the impressionists were inspired by gustave courbet for example and how van gogh was influenced by japanese prints lavishly illustrated throughout look no further for your essential guide to the pantheon of world art

provides an introduction to european painting from the 13th century to the 20th century

covering 800 years in the world of art conceived as a journey through a huge museum this book places artists and movements in their historical context helping the reader to understand the reasons beyond specific works of art the guide includes full colour photographic reproductions of paintings drawings sculpture and architecture
