getting started with django is easy there are tutorials and books that literally walk you through the process of getting your first site up and running taking that code from your laptop to the real world is like opening pandora s box should i use apache gunicorn uwsgi or something else where should i use caching to make things faster how do i know if my database has the right indexes or if it needs more resources do i need a nosql database like mongodb the site runs great on my laptop why is it so slow in production how many servers does my site need how big should they be what is the 20 effort that will solve 80 of my performance problems if you ve asked yourself any of these questions you re like most django developers heck we were asking some of the same questions when we started working with django 7 years ago at lincoln loop since then we ve built deployed and

maintained a lot of django sites everything from realtime applications to large scale cmses with tons of traffic quite frankly we made a lot of mistakes but we learned a lot too high performance django is the book we wish we had when we got started it will give you a repeatable blueprint for building and deploying fast scalable django sites more information and ebook formats available at highperformancedjango com

updated with revised artists entries the fourth edition of this esteemed guide includes listings for over 10 000 discs musical and biographical details and authoritative critical ratings

martin williams has probably introduced more people to jazz than anyone alive as editor of the smithsonian collection of classic jazz editor of the jazz masters series and author of this superb beginner s guide to jazz the book addresses the basic questions what jazz players do to a popular melody when they improvise and how best to hear and appreciate it with chapters on the blues the art of billie holiday oscar peterson dave brubeck and notes on live jazz close ups of thelonious monk and big joe turner in performance and suggestions for a basic library of jazz records this book will aid the perplexed and reward the already knowledgeable from publisher s description
