could a pope ever consent to be the subject of a political power owen chadwick presents an analysis of the causes and consequences of the end of the historic papal state and the psychological pressures upon old rome as it came under attack from the italian risorgimento and not only from italy but from liberal movements in germany france spain and portugal as well as tsarist russia as it oppressed its polish subjects if a united italy was to be achieved the state must disappear these pressures caused popes to resist the world rather than to try to influence it to make the vatican more of a sanctuary behind high walls and to preach the more otherworldly aspects of catholic faith at the same time they met new moral demands the rights of the labourer in industry divorce toleration which they could confront because the revolution had destroyed the powers of the catholic kings over their churches and therefore catholic authority could be far more centralized in rome

owen chadwick describes the effects of the european revolution of 1789 to 1815 on the papacy and compares catholic church of the ancient régime to that of the early nineteenth century the book shows how strongly the counter reformation still worked in italy during the eighteenth century how it was the constitutional development of states rather than the incoming of new ideas which forced change how traditional was the catholic world even in the age of the enlightenment it shows reform at work and the fierce pressure on the papacy marked first in the forced suppression of the jesuits and afterwards in the kidnapping of two successive popes by french governments it shows how revolution in italy affected church structures and brought on peasant war yet encouraged in a radical form some improvements of church life towards which the earlier reformers had striven finally it shows the

political swing of the restoration after the fall of napoleon the way in which the church was already associated with the political right the great difficulties of restoring church life after the evolutionary years and the persistence half unnoticed of the earlier reforming ideas among catholics
