strum political science city u of new york brooklyn describes the events when a neo nazi group announced it would parade in the chicago suburb in 1977 and the ensuing court case that tested the devotion of many to the principles of free speech annotation copyrighted by book news inc portland or

james tent recounts how these men and women from all over germany and from all walks of life struggled to survive in an increasingly hostile society even as their jewish relatives were disappearing into the east it draws on extensive interviews with twenty survivors many of whom were teenagers when hitler came to power to show how half jews coped with conditions on a day to day basis and how the legacy of the hatred they suffered still lingers in their minds

louis fisher chronicles the capture trial and punishment of the nazi saboteurs in order to examine the extent to which procedural rights are suspended in time of war one of america s leading constitutional scholars fisher analyzes the political legal and administrative context of the supreme court decision ex parte quirin 1942 reconstructing a rush to judgment that has striking relevance to current events fisher contends that the germans constitutional right to a civil trial was hijacked by an ill conceived concentration of power within the presidency overriding essential checks from the supreme court congress and the office of the judge advocate general his book provides a cautionary tale as our nation struggles to balance individual rights and national security book jacket

the widespread acceptance of this racist ideology by ordinary germans helped create the conditions for the final solution

on the murderous road to racial purity hitler encountered unexpected detours largely due to his own crazed views and inconsistent policies regarding jewish identity after centuries of jewish assimilation and intermarriage in german society he discovered that eliminating jews from the rest of the population was more difficult than he d anticipated as bryan rigg shows in this provocative new study nowhere was that heinous process more fraught with contradiction and confusion than in the german military contrary to conventional views rigg reveals that a startlingly large number of german military men were classified by the nazis as jews or partial jews mischlinge in the wake of racial laws first enacted in the mid 1930s rigg demonstrates that the actual number was much higher than previously thought perhaps as many as 150 000 men including decorated veterans and high ranking officers even generals and admirals as rigg fully documents for the first time a great many of these men did not even consider themselves jewish and had embraced the military as a way of life and as devoted patriots eager to serve a revived german nation in turn they had been embraced by the wehrmacht which prior to hitler had given little thought to the race of these men but which was now forced to look deeply into the ancestry of its soldiers the process of investigation and removal however was marred by a highly inconsistent application of nazi law numerous exemptions were made in order to allow a soldier to stay within the ranks or to spare a soldier s parent spouse or other relative from incarceration or far worse hitler s own signature can be found on many of these exemption orders but as the war dragged on nazi politics came to trump military logic even in the face of the wehrmacht s growing manpower needs closing legal loopholes and making it virtually impossible for these soldiers to escape the fate of millions of other victims of the third reich based on a deep and wide ranging research in archival and secondary sources as well as extensive interviews with more than four hundred mischlinge and their relatives rigg s study breaks truly new ground in a crowded field and shows from yet another angle the extremely flawed dishonest demeaning and tragic essence of hitler s rule

they were foot soldiers and officers they served in the regular army and the waffen ss and remarkably they were also jewish at least as defined by hitler s infamous race laws pursuing the thread he first unraveled in hitler s jewish soldiers bryan rigg takes a closer look at the experiences of wehrmacht soldiers who were classified as jewish in this long awaited companion volume he presents interviews with twenty one of these men whose stories are both fascinating and disturbing as many as 150 000 jews and partial jews or mischlinge served often with distinction in the german military during world war ii the men interviewed for this volume portray a wide range of experiences some came from military families some had been raised christian revealing in vivid detail how they fought for a government that robbed them of their rights and sent their relatives to extermination camps yet most continued to serve since resistance would have cost them their lives and they mistakenly hoped that by their service they could protect themselves and their families the interviews recount the nature and extent of their dilemma the divided loyalties under which many toiled during the nazi years and afterward and their sobering reflections on religion and the holocaust including what they knew about it at the time rigg relates each individual s experiences following the establishment of hitler s race laws shifting between vivid scenes of combat and the increasingly threatening situation on the home front for these men and their family members their stories reveal the constant tension in their lives how some tried to hide their identities and how a few were even aryanized as part of hitler s effort to retain reliable soldiers including field marshal erhard milch three star general helmut wilberg and naval commander bernhard rogge chilling compelling almost beyond belief these stories depict crises of conscience under the most stressful circumstances lives of hitler s jewish soldiers deepens our understanding of the complex intersection of nazi race laws and german military service both before and during world war ii

ranging across two centuries of world history alvarez s fascinating study throws open the vatican s doors to reveal the startling but little known world of espionage in one of the most sacred

places on earth

eyewitness account of berlin in wartime before american entry into the war

a fascinating story essential to an understanding of america s use of propaganda warren f kimball author of the juggler franklin roosevelt as wartime statesman lively and revealing there is much that is new and important in this book all students of the war as well as of intelligence will benefit from it robin w winks author of cloak and gown a must acquisition for anyone with any interest in espionage intelligence and propaganda dennis showalter author of tannenburg clash of empires

usually given short shrift in most histories of world war ii hitler s invasion of poland was more than a series of opening salvos it was a testing ground for german brutalities to come this is a comprehensive study of the campaign including insights into its ideological underpinnings
