presenting several in depth studies this book explores how super diversity operates in every day relations and interactions in a variety of urban settings in western europe and the united states the contributors raise a broad range of questions about the nature and effects of super diversity they ask if a quantitative increase in demographic diversity makes a qualitative difference in how diversity is experienced in urban neighborhoods and what are the consequences of

demographic change when people from a wide range of countries and social backgrounds live together in urban neighborhoods the question at the core of the book is to what extent and in what contexts super diversity leads to either the normalization of diversity or to added hostility towards and amongst those in different ethnic racial and religious groups in cases where there is no particular ethno racial or religious majority are certain long established groups able to continue to exert economic and political power and is this continued economic and political dominance actually often facilitated by super diversity with contributions from a number of european countries as well as the usa this book will be of interest to researchers studying contemporary migration and ethnic diversity it will also spark discussion amongst those focusing on multiculturalism in urban environments this book was originally published as a special issue of ethnic and racial studies

few books have ever made their presence felt on college campuses and newspaper opinion pages as quickly and thoroughly as richard arum and josipa rokso's 2011 landmark study of undergraduates learning socialization and study habits academically adrift limited learning on college campuses from the moment it was published one thing was clear no university could afford to ignore its well documented and disturbing findings about the failings of undergraduate education now arum and rokso are back and their new book follows the same cohort of undergraduates through the rest of their college careers and out into the working world built on interviews and detailed surveys of almost a thousand recent college graduates from a diverse range of colleges and universities aspiring adults adrift reveals a generation facing a difficult transition to adulthood recent graduates report trouble finding decent jobs and developing stable romantic relationships as well as assuming civic and financial responsibility yet at the same time they remain surprisingly hopeful and upbeat about their prospects analyzing these findings in light of students performance on standardized tests of general collegiate skills selectivity of institutions attended and choice of major arum and rokso not only map out the current state of a generation too often adrift but enable us to examine the relationship between college experiences and tentative transitions to adulthood sure to be widely discussed aspiring adults adrift will compel us once again to re examine the aims approaches and achievements of higher education

j l anderson seeks to change the belief that the midwest lacks the kind of geographic coherence historical issues and cultural touchstones that have informed regional identity in the american south west and northeast the goal of this illuminating volume is to demonstrate uniqueness in a region that has always been amorphous and is increasingly so midwesterners are a dynamic people who shaped the physical and social landscapes of the great midsection of the nation and they are presented as such in this volume that offers a general yet informed overview of the region after world war ii the contributors most of whom are midwesterners by birth or residence seek to better understand a particular piece of rural america a place too often caricatured misunderstood and ignored however the rural landscape has experienced agricultural diversity and major shifts in land use farmers in the region have successfully raised new commodities from dairy and cherries to mint and sugar beets the region has also been a place where community leaders fought to improve their economic and social well being women redefined their roles on the farm and minorities asserted their own version of the american dream the rural midwest is a regional melting pot and contributors to this volume do not set out to sing its praises or by contrast assume the position of midwestern modesty and self deprecation the essays herein rewrite the narrative of rural decline and crisis and show through solid research and impeccable scholarship that rural midwesterners have confronted and created challenges uniquely their own
