it is obvious that any baby starts the very first stages of learning from a specific family's circumstances and environment this concept is better expressed by the philosophy as you go so go your children a lucky child is cherished on the knees of a loving educated mother unfortunately i was a child deprived of love and affection by my parents in early childhood an attempt was made to write my autobiography in memoir style it was an interesting search to find and verify the motivation that made me tolerate the hard process of education while facing numerous problems and obstacles during the early period of my childhood this work is in chronological order and consists of twenty one chapters i.e. memories of childhood and the later stages of education as well as the impacts of the working environment in the course of time in this regard the translation of this poem is expressive say first thou who are your friends then i would say thee would be concerned it often happens that children stray even if they have educated and wealthy parents on the other hand sometimes it has been observed that a fulcrum caused to become a benevolent and useful person to the human society what a strange secret is hidden there this is my tenet to pass away conscientiously rather than be a perennial recalcitrant ignorant whatever has happened to me i hope other children do not suffer the same thing even though my dispersed writing may be a form of writing style all

that i have said in these three distinguished periods of my life are not fabricated not a single idea or action i am proud of that to say what i have mentioned some are episodes that happened to me and a few ones to others i consider them to have significant and effective points for my children and to others who are in need

this third edition of teaching mathematics for the 21st century continues to help teachers let the secret out to open up to their students the wonderful discoveries and challenges of the pattern making and problem solving aspects of a fascinating subject mathematics the rationale remains the same to enable prospective and current teachers to access and use tools and strategies to effectively teach mathematics to contemporary students changing demographics knowledge of how people learn and technology all impact the way we educate our young people this edition incorporates lessons and strategies from programs that have proven success in many types of classrooms many of these examples help students connect mathematics to real life situations and communicate their understanding of the underlying concepts although technology is constantly being upgraded ways to increase student motivation through its application remains a goal for example since applets can enhance a lesson whether the teacher uses a computer projector a smart board or has students work individually on computers we have identified several sources of mathematics applets that can be correlated to various lessons research citations and summaries have been updated to reflect current information on teaching and learning for future teachers
