where is dār al islām and who defines its boundaries in the 21st century in dār al islām revisited territoriality in contemporary islamic legal discourse on muslims in the west sarah albrecht explores the variety of ways in which contemporary sunni muslim scholars intellectuals and activists reinterpret the islamic legal tradition of dividing the world into dār al islām the territory of islam dār al ḥarb the territory of war and other geo religious categories starting with an overview of the rich history of debate about this tradition this book traces how and why territorial boundaries have remained a matter of controversy until today it shows that they play a crucial role in current discussions of religious authority identity and the interpretation of the shariʿa in the west

dissident geographies is an accessible and lively exploration of radical perspectives in human geography the perspectives examined in the book reveal and resist certain power relations that have constituted geographical knowledge the book has two main aims first rather than reify the geographical tradition dissident geographies introduces a number of geographical traditions that challenge and destabilize what counts as geographical knowledge second the book shows how the production of geographical knowledge is tied to politics and struggles outside as well as within the academy in each chapter case studies illustrate the spatiality of political practice and the politics of geographical thought in this way dissident geographies reveals the connections between power politics and geographical knowledge

what do americans think race means what determines one s race appearance ancestry genes or culture how do education government and business influence our views on race to unravel these complex questions ann morning takes a close look at how scientists are influencing ideas about race through teaching and textbooks drawing from in depth interviews with biologists anthropologists and undergraduates morning explores different conceptions of race finding for example that while many sociologists now assume that race is a social invention or construct anthropologists and biologists are far from such a consensus she discusses powerful new genetic accounts of race and considers how corporations and the government use scientific research for example in designing dna ancestry tests or census questionnaires in ways that often reinforce the idea that race is biologically determined widening the debate about race beyond the pages of scholarly journals the nature of race dissects competing definitions in straightforward language to reveal the logic and assumptions underpinning today s claims about human difference

this highly acclaimed bestselling textbook quickly established itself as one of the leading texts on the subject worldwide in its 1st edition now substantially revised and updated scholte provides students with a comprehensive introduction to globalization and questions why this phenomenon has occurred to what extent it changes the world and whether it is a force for good or ill accessibly written by a leading authority both as an academic researcher and a policy consultant this second edition draws on the author s research in more than 20 countries over 5 continents split into 3 parts the text first outlines a critical framework for understanding globalization before exploring its impact on society and the key debates surrounding its normative impact exploring questions

such as what globalization is how it has emerged and what effect it has had on society this text is essential reading for undergraduate and postgraduate students seeking a thorough study of globalization new to this edition a broader perspective on all the dimensions of globalization makes use of the extensive new data and research findings since the first edition was released draws more widely from other fields such as business studies law and economics

winner of philosophy of education society of australasia pesa s inaugural pesa book awards in 2015 and the university of hong kong research output prize for education 2014 15 muslims and islam in u s education explores the complex interface that exists between u s school curriculum teaching practice about religion in public schools societal and teacher attitudes toward islam and muslims and multiculturalism as a framework for meeting the needs of minority group students it presents multiculturalism as a concept that needs to be rethought and reformulated in the interest of creating a more democratic inclusive and informed society islam is an under considered religion in american education due in part to the fact that muslims represent a very small minority of the population today less than 1 however this group faces a crucial challenge of representation in united states society as a whole as well as in its schools muslims in the united states are impacted by ignorance that news and opinion polls have demonstrated is widespread among the public in the last few decades u s citizens who do not have a balanced fair and accurate view of islam can make a variety of decisions in the voting booth in job hiring and within their small scale but important personal networks and spheres of influence that make a very negative impact on muslims in the united states this book presents new information that has implications for curricula religious education and multicultural education today examining the unique case of islam in u s education over the last 20 years chapters include perspectives on multicultural education 9 11 the media and the new need to know islam and muslims in public schools blazing a path for intercultural education this book is an essential resource for professors researchers and teachers of social studies particularly those involved with multicultural issues critical and sociocultural analysis of education and schools as well as interdisciplinary scholars and students in anthropology and education
