this book provides useful strategies for language learning researching and the understanding of social factors that influence human behavior it offers an account of how we use human animal and plant fixed expressions every day and the cultural aspects hidden behind them these fixed expressions include various linguistic vehicles such as fruit jokes and taboos that are related to speakers use in the real world the linguistic research in mandarin chinese hakka german and english furthers our understanding of the cultural value and model of cognition embedded in life form embodiment languages

how do russian and czech nonbinary people use language to construct their identity this question has hardly been addressed so far so this volume describes and analyzes the identity driven linguistic variation of russian and czech nonbinary speakers if a linguistic feature indexes the gender binary in the standard variety then a nonbinary speaker who desires to express their

gender identity in interaction employs an alternative that lacks this feature to perform and thus linguistically construct nonbinary identity this hypothesis is investigated using a triangulation of quantitative and qualitative methods banking on data from corpora and surveys among the most relevant practices that have emerged are the overt introduction of gender identity labels as well as pronouns and or chosen agreement patterns into discourse the alternation of gender agreement patterns and the use of plural endings with singular meaning

drawing together a team of international scholars the sage encyclopedia of theory in psychology examines the contemporary landscape of all the key theories and theorists presenting them in the context needed to understand their strengths and weaknesses key features include approximately 300 signed entries fill two volumes entries are followed by cross references and further readings a reader s guide in the front matter groups entries thematically a detailed index and the cross references provide for effective search and browse in the electronic version back matter includes a chronology of theory within the field of psychology a master bibliography and an annotated resource guide to classic books in this field journals associations and their websites the sage encyclopedia of theory in psychology is an exceptional and scholarly source for researching the theory of psychology making it a must have reference for all academic libraries

the central problem of philosophy is the problem of certainty what does it mean to be sure are there ideas beyond the possibility of error or refutation what does it mean for a notion to be incorrigible in this book frank d schubert squarely addresses the question of whether there is a single standard of certainty that can be applied to such disparate areas as logic mathematics politics religion familial tribal commitments and science schubert proposes a common standard for assessing certainty the certainty of knowing one s own personal proper name as a standard that can establish common ground within each widely disparate area the result is a new philosophy in a grand manner and a powerful ethical proposal for our time

the international encyclopedia of linguistics 2nd edition encompasses the full range of the contemporary field of linguistics including historical comparative formal mathematical functional and philosophical linguistics with special attention given to interrelations within branches of linguistics and to relations of linguistics with other disciplines areas of intersection with the social and behavioral sciences ethnolinguistics sociolinguistics psycholinguistics and behavioral linguistics receive major coverage along with interdisciplinary work in language and literature mathematical linguistics computational linguistics and applied linguistics longer entries in the international encyclopedia of linguistics ranging up to four thousand words survey the major

fields of study for example anthropological linguistics history of linguistics semantics and phonetics shorter entries treat specific topics within these fields such as code switching sound symbolism and syntactic features other short entries define and discuss technical terms used within the various subfields or provide sketches of the careers of important scholars in the history of linguistics such as leonard bloomfield roman jakobson and edward sapir a major portion of the work is its extensive coverage of languages and language families from those as familiar as english japanese and the romance languages to hittite yoruba and nahuatl all corners of the world receive treatment languages that are the subject of independent entries are analyzed in terms of their phonology grammatical features syntax and writing systems lists attached to each article on a language group or family enumerate all languages extinct or still spoken within that group and provide detailed information on the number of known speakers geographical range and degree of intelligibility with other languages in the group in this way virtually every known language receives coverage for ease of reference and to aid research the articles are alphabetically arranged each signed by the contributor supported by up to date bibliographies line drawings maps tables and diagrams and readily accessible via a system of cross references and a detailed index and synoptic outline authoritative comprehensive and innovative the 2nd edition of the international encyclopedia of linguistics will be an indispensable addition to personal public academic and research libraries and will introduce a new generation of readers to the complexities and concerns of this field of study
