multiple functions of filmed british literature as a cinematic subject in its own right  
one reflecting the specific political and aesthetic priorities of different national and  
historical cinemas in what ways has the british literary canon authorized and  
influenced the history and aesthetics of film and in what ways has filmed british  
literature both affirmed and challenged the very idea of literary canonicity seeking to  
answer these and other key questions this indispensable study shows how these  
adaptations emerged from and continue to shape the social artistic and commercial  
aspects of film history

fireflies is a book about how writing poetry can help us explore memory and identity  
and it is also a book of poetry that explores memory and identity this work is an  
example of the liminal scholarship advocated in the need for revision 2011 by the  
same author occupying a space in the academic world s windows and doorways not

exactly in any one field but rather in the spaces between where the inside and outside commingle it seeks to trouble the boundaries between teacher and writer critic and artist writer and reader and teacher and student in a way from which all parties might benefit fireflies aims for a different kind of scholarship and hopes to offer new ways for teachers to be professional and academic the second section of the book is a full length poetry text the author s own exploration of the notions that people who teach writing should also be writers and that poetry is more something you do than something you are the book says we should write poems not because of some inborn gift for it but because the act of writing poetry is good for us and helps us understand ourselves better it is a book written in the hopes that other books will be written maybe by you david owen has taken his understanding of currere the root of curriculum to a new level with his demonstration of the value of reading and writing poetry he argues that writing poetry develops an attitude of adventure into everydayness as his first chapter songs of ourselves suggests we all can be whitman s if we take up our pens to celebrate what lives around us as well as in us owen demonstrates this theory with a calendar of poems he wrote that share small frozen moments of the seasons of a year connecting his memories with forays into night skies and fireflies and the fractals that god makes david owen s poetic images suggest that our deep connection with earth can be recovered if we let a little more oak in the voice of our words mary aswell doll author of the mythopoetics of currere
