soon after its publication in 1973 fear of flying brought erica jong immense popular success and media fame alternately pegged sassy and vulgar jong s novel embraced the politics of the women s liberation movement and challenged the definition of female sexuality yet today more than twenty years and several books later literary reputation continues for the most part to elude jong typecast by her adversaries as a media seeking sensationalist erica jong has been unfairly side stepped by academia charlotte templin contends in this carefully researched study augmented by personal interviews with jong templin assembles and analyzes the medley of responses to jong s books by reviewers critics writers academics and the media by liberals conservatives and feminists she

examines the diverse opinions on the merit and relevance to contemporary life of fear of flying the invocation of a high culture low culture dichotomy to discredit how to save your own life the anatomy of literary success with fanny jong s reception in a postfeminist age and the trivialization of jong s works that is inevitable with mass media exposure templin also shows how antagonistic reviewers tend to identify jong with her fictitious characters a practice more common when the author is a woman and judge her to be guilty of the sin of not being a proper woman in turn she shows how reviewers reveal something of their own values and ideological biases in their critiques and how literary reputations are built destroyed and altered over time the first book to make a detailed examination of the reputation of a woman writer feminism and the politics of literary reputation provides an excellent case study for the literary reception of women writers within a broad cultural context templin s analysis offers valuable insight into the reception of women writers especially commercially successful women writers and dramatically illustrates the relation of literary reputation to popular appeal and cultural mores

examines in rich detail the daily lives of pioneer women journal of american history anyone interested in women s history and western history will want to read this pacific historical review copyright libri gmbh all rights reserved

this is the first single volume to focus on the presidencies of both james a garfield and chester a arthur drawing from a host of studies on the foreign and domestic policies of the nation during the gilded age as well as from his own primary research the author presents a somewhat revisionist look at garfield and arthur revisionist in that he gives the reader a renewed appreciation of both men far from being cynical spoilsmen or naive incompetents individuals whose presidencies provide studies in ineptitude garfield and arthur emerge as men of considerable ability while making no claims of greatness doenecke maintains that each was a significant transitional figure playing a crucial role as the institution of the presidency moved from the weak leadership of andrew johnson to the forceful direction of theodore roosevelt according to doenecke garfield saw the office of chief executive primarily in administrative terms and his great battle was over keeping the power of appointment in his own hands his victory over the stalwarts enhanced both the power and prestige of the office his knowledge of how government worked was unmatched long before woodrow wilson made his mark garfield was the scholar in politics the diplomacy of secretary of state james g blaine comes under critical scrutiny doenecke evaluates his performance in the chile peru war war of the pacific the guatemala mexico dispute the isthmian canal issue irish american activities in britain and efforts to secure markets in korea br garfield was assassinated less than six months after he entered office he had yet to be tested on major issues of public policy chester a arthur was ill prepared to be chief executive was in poor health much of the time while he was in office and was faced with a hopelessly divided party nevertheless he was one of the nation s great political surprises his administration pioneered in the development of the navy sought foreign markets for american surpluses fostered civil service reform and pressed for a scientific tariff doenecke devotes one chapter to the spoils system and the background to the pendleton act one to

arthur s strategy regarding the south and then offers an in depth analysis of diplomacy during arthur s tenure during the presidencies of garfield and arthur the united states attempted to intervene in a war between chile and peru sought to turn nicaragua into a protectorate supplied leading advisers to madagascar and korea and took a major part in the congo conference of 1884 in examining these activities even while pointing to uncoordinated statecraft and inept diplomacy doenecke challenges the long held view that from 1881 to 1885 the nation was withdrawn and insular his fresh perspective on the garfield and arthur years will be of considerable interest to historians of the gilded age

gould american history u of texas austin has dusted off updated and thinned his 1988 lady bird johnson and the environment to kick off the new series on the wives of us presidents he draws on johnson s white house papers and interviews with her and her close associates to argue that she was one of the most politically active first ladies though her concern with the environment was overshadowed by protests against the vietnam war annotation copyrighted by book news inc portland or

in this volume koistinen examines war planning and mobilizing in an era of rapid industrialization and reveals how economic mobilization for defense and war is shaped at the national level by the interaction of political economic and military institutions and by increasingly powerful and expensive weaponry

in this reassessment of new deal policymaking rhonda levine argues that the major constraints upon and catalysts for fdr s policies were rooted in class conflict countering neo marxist and state centred theories which focus on administrative and bureaucratic structures she contends that too little attention has been paid to the effect of class struggle

gould has dusted off updated and thinned his 1988 lady bird johnson and the environment to kick off the new series on the wives of us presidents

because kansas has been called the leading midwestern populist state and the midwestern phrase was the principle one of this significant movement in american history this first comprehensive history of the kansas people s party its leaders and their thoughts and actions is an important addition to populist historiography through this study of the leadership as well as a complete and personal background analysis of the populist and republican members of five kansas legislatures the author helps to place populism within its proper historical context although kansas populism is shown to have had a retrogressive strain the pervasive force of the movement is revealed as a constructive and progressive response to the technological achievements that had revolutionized agriculture and industry over the course of the nineteenth century their answers were not always commendable but the populists were the first political activists to come to grips in an effective manner with the problems created by the continuing economic revolution that uniquely characterizes modern history and they were intent on demonstrating apparently that the purification of politics was not an iridescent dream in the dialogue which they

conducted in the program which they advance they assisted in launching a progressive quest that continues in our own time undertaken with the objective of testing recent controversial interpretations of the populist movement this book according to one reader far surpasses studies of populism in other states done long ago and innocent of modern methods it contains passages almost epigrammatic in their perceptiveness and is notable for the author's fairness in dealing with the evidence in fact the breadth of research and the extensive annotation and bibliographical material included make this volume an important source in itself

known as the father of his country george washington is sometimes viewed as a demi god for what he was and did rather than for what he thought in addition to being a popular icon for the forces of american nationalism he served as commander in chief of the victorious continental army that he played a key role in securing the adoption of the constitution is well known but few credit him with a political philosophy that actively shaped the constitutional tradition

the first major synthesis of the war since 2001 drawing upon a host of newly declassified documents presidential tapes and overlooked foreign sources to give the most comprehensive look to date of the war that still haunts america

the west is popularly perceived as america's last outpost of unfettered opportunity but twentieth century corporate tourism has transformed it into america's land of opportunism from sun valley to santa fe towns throughout the west have been turned over to outsiders and not just to those who visit and move on but to those who stay and control although tourism has been a blessing for many bringing economic and cultural prosperity to communities without obvious means of support or allowing towns on the brink of extinction to renew themselves the costs on more intangible levels may be said to outweigh the benefits and be a devil's bargain in the making hal rothman examines the effect of twentieth century tourism on the west and exposes that industry's darker side he tells how tourism evolved from grand canyon rail trips to sun valley ski weekends and disneyland vacations and how the post world war ii boom in air travel and luxury hotels capitalized on a surge in discretionary income for many americans combined with newfound leisure time from major destinations like las vegas to revitalized towns like aspen and moab rothman reveals how the introduction of tourism into a community may seem innocuous but residents gradually realize as they seek to preserve the authenticity of their communities that decision making power has subtly shifted from the community itself to the newly arrived corporate financiers and because tourism often results in a redistribution of wealth and power to outsiders observes rothman it represents a new form of colonialism for the region by depicting the nature of tourism in the american west through true stories of places and individuals that have felt its grasp rothman doesn't just document the effects of tourism but provides us with an enlightened explanation of the shape these changes take deftly balancing historical perspective with an eye for what's happening in the region right now his book sets new standards for the study of tourism

and is one that no citizen of the west whose life is touched by that industry can afford to ignore
