may we speak in the present age of holy scripture and what validation of that claim can be offered robust enough to hold
 good for both religious practice and intellectual enquiry john webster argues that while any understanding of scripture must
 subject it to proper textual and historical interrogation it is necessary at the same time to acknowledge the special
 character of scriptural writing his 2003 book is an exercise in christian dogmatics a loud reaffirmation of the triune god at
 the heart of a scripture based christianity but it is written with intellectual rigour by a theologian who understands the
 currents of modern secular thought and is able to work from them towards a constructive position on biblical authority it
 will resonate with anyone who has wondered or worried about the grounds on which we may validly regard the bible as
 god s direct communication with humanity

christian universalism has been explored in its biblical philosophical and historical dimensions for the first time the god who
 saves explores it in systematic theological perspective in doing so it also offers a fresh take on universal salvation one that

is postmetaphysical existential and hermeneutically critical the result is a constructive account of soteriology that does justice to both the universal scope of divine grace and the historicity of human existence in the god who saves david w congdon orients theology systematically around the new testament witness to the apocalyptic inbreaking of god s reign the result is a consistently soteriocentric theology building on the insights of rudolf bultmann ernst kase mann eberhard jungel and j louis martyn he interprets the saving act of god as the eschatological event that crucifies the old cosmos in christ human beings participate in salvation through their unconscious existential cocrucifixion in which each person is interrupted by god and placed outside of himself or herself both academically rigorous and pastorally sensitive the god who saves opens up new possibilities for understanding not only what salvation is but also who the god who brings about our salvation is here is an interdisciplinary exercise in dogmatic theology for the twenty first century

if you were told that christ assumed a fallen human nature how would you respond this statement makes many uncomfortable because they believe that to agree with this statement would sacrifice the sinlessness of jesus others have said that this view is heretical and completely undermines what scripture teaches but does it in flesh and blood daniel j cameron examines this idea and its critics such as oliver crisp and kevin chiarot to see if it is possible to say that christ did in fact assume a fallen human nature daniel examines one of the most well known proponents of this view t f torrance to see if his arguments can overcome those who have critiqued him daniel begins by explaining the fallen nature view from the perspective of torrance he then moves to explain some of the biggest critiques of this view and then in chapter 4 seeks to find an answer to the critics this book ends by examining the role of the holy spirit in the life of christ as it pertains to this question

in pannenbergs seminal work the christian doctrine of god is discussed using exegetical analysis across a number of disciplines truth the nature of revelation the language used to discuss god the trinity and theology in the public sphere are

topics for debate

in ruled reading and biblical criticism matthew t bell contends that the gulf in interpretive priorities between ancient and modern readers has been exaggerated and that careful study of early christian reading practices suggests that it is both possible and productive to recontextualize early christian ruled reading for a postmodern setting modern prejudice holds that ancient christian interpretation was relatively unconcerned with history and concomitantly determined to foist extrascriptural doctrinal commitments onto scripture silencing those layers of scripture s meaning that modern criticism has been most concerned with uncovering in this book bell argues that when the ethos and theology of reading in the early church are taken into account premodern interpretive priorities turn out to be less implausible than the modern world has believed them to be through close reading of ancient christian texts bell outlines an ontology of scripture wherein the relationship between early christianity s rule of faith on one hand and its scriptures on the other was expressly constructed as a hermeneutical spiral the slant of which was designed to attend to and be edified by textually mediated conundrums and intellectual provocations viewed along that spiral the church s rule was as scriptural as the church s catalog of scriptures was ruled this book will be welcomed by academics who study early christianity and scripture as well as scholars interested in reconsidering christian hermeneutical questions for a postmodern age
