the handbook of the study of play brings together in two volumes thinkers whose diverse interests at the leading edge of scholarship and practice define the current field because play is an activity that humans have shared across time place and culture and in their personal developmental timelines and because this behavior stretches deep into the evolutionary past no single discipline can lay claim to exclusive rights to study the subject thus this handbook features the thinking of evolutionary psychologists ethologists and biologists neuroscientists developmental psychologists psychotherapists and play therapists historians sociologists and anthropologists cultural psychologists philosophers theorists of music performance and dance specialists in learning and language acquisition and playground designers together but out of their varied understandings the incisive contributions to the handbook take on vital questions of educational policy of literacy of fitness of the role of play in brain development of spontaneity and pleasure of well being and happiness of fairness and of the fuller realization of the self these volumes also comprise an intellectual history retrospective looks at the great thinkers who have made possible the modern study of play

the first generation of the proper academic study of religion might be said to span the half century from 1963 to 2013 supreme court justice clark s 1963 opinion clarifying that any liberal education is not complete without a study of comparative religion or the history of religion and its relationship to the advancement of civilization allowed the legal teaching of religion in secular universities the end of the first generation might be marked by the 2013 retirement of professor jonathan z smith 1938 2017 from the university of chicago where he had taught since 1968 arguably no scholar has made a greater contribution than did smith to establishing a proper academic study of religion in the proper study of religion sam gill charts an innovative course of development for the academic study of religion by creatively engaging the legacy of jonathan z smith gill s teacher and mentor for fifty years their careers coincided with the explosive expansion of the study of

religion in secular universities in the us that began in the mid 1960s using an engaging narrative style gill builds on smith s work exploring an extensive range of absorbing and foundational topics including comparison as essential to academic technique and to human knowledge itself the important role of experience richly understood both to academic studies of religion and to religions as lived play philosophically understood as a core dynamic of smith s entire program the relationship of academic document based studies to the sensory rich real world of religions and self moving as providing a biological and philosophical foundation on which to develop and expand upon a proper academic study of religion the foregrounding of human self movement new to the study of religion is informed by gill s experience as a dancer and student of dancing in cultures around the world this book honors the work of an unforgettable giant of a man while also offering critical assessments and innovative ideas in the effort to advance the remarkable legacy of jonathan z smith

renowned hopkins expert joseph j feeney sj offers a fresh take on gerard manley hopkins that begins the next phase in hopkins studies in both his poetry and prose feeney discovers a distinctive playfulness inextricably bound to hopkins s creativity style and poetic competitiveness even strikingly in the wreck of the deutschland and the terrible sonnets no one who absorbs these radical readings will ever see his poems the same way

beyond the concept of sport challenges tired assumptions about athletics to unveil sports underestimated yet far reaching social impact and philosophical significance while governments downplay its influence author robert griffiths recognizes that sports especially cricket deeply channels the human spirit for participants and fans alike he eschews cliches to deliver fresh insight into sports resonance this is no dry academic tome but rather a lively examination blending scholarship with accessibility griffiths brings iconoclastic yet sage opinions to unpacking how athletic pursuits shape culture and consciousness he illuminates the under appreciated role sports play in forging identity purpose inspiration escapism and more for millions globally grappling with issues often overlooked when discussing athletics griffiths unconventional analysis explores fandom nationalism arts business and the very meaning woven through sports rituals written with passionate intellect wry wit and a distaste for the dull beyond the concept of sport cries out to be read by both die hard fans and curious sceptics after all few human realms spark such fervour and unity across the world s divides like that of sports this book captures that emotional impact while elevating sports as a subject worthy of serious yet spirited consideration

historiographies of game studies offers a first of its kind reflection on how game studies as an academic field has been shaped and sustained today game studies is a thriving field with many dedicated national and international conferences journals professional societies and a strong presence at conferences in disciplines like computer science communication media studies theater visual arts popular culture and others but when did game studies start and what and who is at the core or center of game studies fields are defined as much by what they are not as by what they are and their borderlands can be hotly contested spaces in this anthology scholars from across the field consider how the boundaries of game studies have been established codified contested and protected raising critical questions about who and what gets left out of the field over more than two dozen chapters and interviews with leading figures including espen aarseth kishonna gray henry jenkins lisa nakamura kentaro matsumoto ken mcallister and janet murray the contributors offer a dazzling array of insightful provocations that address the formation propagation and cultivation of game studies interrogating not only the field s pasts but its potential futures and asking us to think deliberately about how academic fields are collectively built
