this is a writing reference book for designers whether you re an architect landscape architect interior architect or an industrial designer the text shows you the interdependence of writing and design the authors present typical writing assignments and explain principles of effective writing

how architects write shows you the interdependence of writing and design in both student and professional examples this fully updated edition features more than 50 color images a new chapter on online communication and sections on critical reading responding to requests for proposals the design essay storyboarding and much more it also includes resources for how to write history term papers project descriptions theses proposals research reports specifications field reports client communications post occupancy evaluations and emailed meeting agendas so that you can navigate

your career from school to professional practice

there are a lot of good books available to help people write better they include dictionaries usage guides and various types of writers manuals and professional writers ought to have many of those books on their bookshelves but most architects and other design and construction professionals are not professional writers instead they are people who spend a large part of their professional lives writing that s a big difference and that s where this book will help the architect s guide to writing has been written not by an english major but by bill schmalz an architect who knows the kinds of documents his fellow professionals routinely have to write and understands the kinds of technical mistakes they often make in their writing this book is designed to meet the specific needs of design and construction professionals it s not going to waste their time with the things that most educated professionals know but it will help them with the things they don t know or are unsure of it s not a chicago manual sized encyclopaedic reference that includes everything any writer would ever need to know because architects don t need to know everything but what they do need to know and what they use every day in their professional lives has been assembled in this book

extraordinary architecture addresses so much more than mere practical considerations it inspires and provokes while creating a seamless experience of the physical world for its users it is the rare writer that can frame the discussion of a building in a way that allows the reader to see it with new eyes writing about architecture is a handbook on writing effectively and critically about buildings and cities each chapter opens with a reprint of a significant essay written by a renowned architecture critic followed by a close reading and discussion of the writer s strategies lange offers her own analysis using contemporary examples as well as a checklist of questions at the end of each chapter to help guide the writer this important addition to the architecture briefs series is based on the author s design writing courses at new york university and the school of visual arts lange also writes a popular online column for design observer and has written for dwell metropolis new york magazine and the new york times writing about architecture includes analysis of critical writings by ada louise huxtable lewis mumford herbert muschamp michael sorkin charles moore frederick law olmsted and jane jacobs architects covered include marcel breuer diller scofidio renfro field operations norman foster frank gehry frederick law olmsted som louis sullivan and frank lloyd wright

report writing for architects presents a critical review of standard report formats use in writing reports for architects it discusses a set of formats to help architects and surveyors to create good reports for their client it addresses every instance that

necessitates the creation of architectural report some of the topics covered in the book are the purpose target audience format presentation and main points of a report description style and basis of the content of report to be written creating reports connected with building projects making of feasibility report format and its content and considerations in creating a report the outline proposals report format and the scheme design format are discussed an in depth analysis of creating a progress report is given the book also covers a special report report on claim for loss and expense a report on award of extension of time format and miscellaneous reports the book can provide useful information to architects surveyors students and researchers

writing architecture considers the process methods and value of architecture writing based on wiseman s 30 years of experience in writing editing and teaching young architects how to write this book creatively tackles a problematic issue that wiseman considers crucial to successful architecture writing clarity of thinking and expression he argues that because we live our lives within the built environment architecture is the most comprehensive and complex of all art forms written as a primer for both college level students and practitioners writing architecture acknowledges and explores the boundaries between different techniques of architecture writing from myriad perspectives and purposes using excerpts from writers in different genres and from different historical periods wiseman offers a unique and authoritative perspective on the comprehensible writing skills needed for success

this book charls the fascinating history of architectural theory from the renaissance to the present day addressing its subject country by country and featuring over 850 illustrations it offers a chronological overview of the most important architects and architectural theoreticians from alberti to koolhaas book jacket

in recent years research has gradually become more integrated in the profiles of schools of architecture and design simultaneously the concept of architecture and designresearchhas become increasingly diverse differentiated and complex as reflected by the dialogue with a number of different academic traditions and a growing interest in design based research methods 0this anthology highlights the potentials and challenges for research in architecture and design the included essays are based on papers given at a symposium held at the aarhus school of architecture in 2011 and contain a number of topical positions ranging from the activist and academic to practice based and artistically based research by international and danish researchers the anthology is aimed at architects and designers as well as others with an interest in the discussion of the concept of research in the fields of architecture and design the anthology is in english and richly illustrated

in this tantalizing work roger connah explores the peculiar odyssey of twentieth century architecture through the buildings and writings of finlands iconoclastic architect reima pietila among architects pietila is a cult figure a respected but often misunderstood outsider and arctic shaman only recently granted the international acclaim and appreciation that are his due pietila s complex geomorphic structures have been compared to the work of gaudi and bruce goff and variously labeled surrealistic romantic or expressionistic writing architecture positions pietila at the heart of contemporary architectural debates the carnival of conflicting isms modern post modern post structuralist deconstructive from his relative isolation in helsinki he is thrust into the community of this century s most revolutionary artists and thinkers including wittgenstein einstein beckett borges magritte and mcluhan through pietila connah reflects on architecture s progress and excess in this century tracing a path through multiple meanings and intellectual adventures more metaphysical inquiry than conventional monograph this extraordinary study draws from various sources to read architecture as pietila does as a form of cultural composition in which all theory literature music art or natural phenomena are potential sources for architectural meaning like the existential detective in the pulp crime novels on fantomas the elegant french philosopher thief connah offers fragmentary clues contradictory solutions and digressive speculations on the particular mystery misery and miracle that is modern architecture but wisely leaves the final verdict up to his discerning readers roger connah s extensive collaboration with reima pietila has provided him with a unique opportunity to trace the architect s inimitable approach to architecture and culture since 1986 the author has been living in india working as a freelance writer he is visiting professor at the national institute of design in ahmedabad and the jamia millia islamia university in new delhi

this anthology gathers together for the first time the most influential architectural texts from the nordic countries denmark finland norway and sweden many of the texts appear for the first time in english making them available to a worldwide readership these texts were written between 1920 and 2007 by architects who lived and worked in the nordic countries the book is structured in sections by country with supportive introductions by regional experts the reader can seek out common themes of space place materials etc across nations or approach the material chronologically
