an essential toolkit for understanding architecture as both art form and the setting for our everyday lives we spend most of our days and nights in buildings living and working and sometimes playing architecture is both the setting for our everyday lives and a public art form but it remains mysterious to most of us in how architecture works witold rybczynski one of our best most stylish critics and the winner of the vincent scully prize for his writing on architecture answers our most fundamental questions about how good and not so good buildings are designed and constructed introducing the reader to the rich and varied world of modern architecture he reveals how architects as diverse as frank gehry renzo piano and robert a m stern envision and create their designs he teaches us how to read plans how buildings respond to their settings and how the smallest detail of a stair balustrade for instance can convey an architect s vision how architecture works explains the central elements that make up good building design ranging from a war memorial in london to an opera house in saint petersburg from the national museum of african american history and culture in washington d c to a famous architect s private retreat in princeton new jersey it is an enlightening humanist s toolkit for thinking about the built environment and seeing it afresh architecture if it is any good speaks to all of us rybczynski writes

this revelatory book is his grand tour of architecture today

where does architecture belong in the larger scheme of things is it a liberal art is it related to painting music medicine or horse training is it timeless or does it have a beginning to pursue such questions stephen parcell investigates four historical definitions of western architecture as a *techné* in ancient greece a mechanical art in medieval europe an art of *disegno* in renaissance italy and a fine art in eighteenth century europe these definitions situated architecture within larger classifications of knowledge establishing alliances between architecture and other disciplines they also influenced elements of architectural practice that we now associate with three characters designer builder and dweller and three things material drawing and building guided by current architectural questions parcell examines writings in these historical periods and focuses on practical implications of texts by hugh of st victor leon battista alberti and etienne louis boullée four historical definitions of architecture shows how the concept of architecture and elements of architectural practice have evolved over time even the word architecture has ambiguous roots
