workplace relationships are critical to how work gets done in organizations while current research gives rigorous theoretical and empirical insights regarding workplace relationships and what are often known as social networks there are only limited details of the practical applications of workplace relations this edited collection provides readers with cutting edge theoretical and practical insights from the latest research at the intersection of social networks and workplace relationships this volume has a dual focus first it examines the outcomes of workplace relationships such as individual performance and how social network relationships affect attitudes and behaviours second it examines how workplace relationships are formed and their implications with regard to friendship trust and collegiality drawing on innovative research on social networks the authors examine the importance of workplace relationships across a broad selection of institutional settings featuring practical applied examples this collection brings together insights from leading scholars in a practical and accessible format for academics and students

much philosophical work on pop culture apologises for its use using popular culture is a necessary evil something merely useful for reaching the masses with important philosophical arguments but works of pop culture are important in their own right they shape worldviews inspire ideas change minds we wouldn't baulk at a book dedicated to examining the philosophy of the great gatsby or 1984 why aren't star trek and superman fair game as well after all when produced the former were considered pop culture just as much as the latter this will be the first major reference work to right that wrong gathering together entries on film television games graphic novels and comedy and officially recognizing the importance of the field it will be the go to resource for students and researchers in philosophy culture media and communications english and history and will act as a springboard to introduce the reader to the other key literature in the field

this volume is the first complete english translation of hasdai crescas s light of the lord light of the lord is widely acknowledged as a seminal work of medieval jewish philosophy and second in importance only to maimonides guide of the perplexed crescas takes on not only maimonides but through him aristotle and challenges views of physics and metaphysics that had become entrenched in medieval thought once the aristotelian underpinnings of medieval thought are dislodged crescas introduces alternative physical views and reinstates the classical jewish god as a god of love and benefaction rather than a self intellecting intellect

the end for humankind then is to become attached in love to the god of love through devoted service

the summa theologica is the best known work of italian philosopher scholar and dominican friar saint thomas aquinas 1225 1274 widely considered the catholic church s greatest theologian famously consulted immediately after the bible on religious questions at the council of trent aquinas s masterpiece has been considered a summary of official church philosophy ever since aquinas considers approximately 10 000 questions on church doctrine covering the roles and nature of god man and jesus then lays out objections to church teachings and systematically confronts each using biblical verses theologians and philosophers to bolster his arguments in volume ii aquinas addresses happiness good and evil love and hatred hope and despair anger virtue sin and grace and much more this massive work of scholarship spanning five volumes addresses just about every possible query or argument that any believer or atheist could have and remains essential more than seven hundred years after it was written for clergy religious historians and serious students of catholic thought

this text examines the intellectual partnership of friedrich nietzsche 1844 1900 and paul ree 1849 1901 combining biography with philosophy to give an account of a friendship that made major contributions to modern thought provided by publisher

this book covers moral philosophy from the ancient times to the modern concepts of professional ethics its all embracing practical nature links it with many other areas of study including anthropology biology medicine economics history politics psychology sociology and theology

this is a reference for early modern philosophy representing the most contemporary research in the history of early modern philosophy it is organized by thinker rather than theme and covers every important philosopher and philosophical movement of 16th and 18th century europe

thanks to the publication of plato and the other companions of sokrates george groves was renowned as the greatest nineteenth century plato scholar in the reface to this book the author says he s chosen the characters of plato and sokrates as they are interesting and important characters in philosophy and history the personality of sokrates has become legendary yet the period of his greatest achievement coincided with work and life od other

important philosophers this book tells about important leaders of thought from the socrates circles xenophon kriton protagoras parmenides menon and others it may be used as a supplementary source for learning philosophy and for individual research on the history of philosophy according to the author this book is a sequel and supplement to his major opus the history of greece

harper s informs a diverse body of readers of cultural business political literary and scientific affairs

combining theory and issues with text and readings this ethics text begins with coverage of ethical theory utilitarianism kant s moral theory natural law and virtue ethics it then goes on to discuss contemporary ethical issues ranging from personal ones such as sexual morality and euthanasia to matters of public policy such as legal punishment and international concerns such as war and peace and economic justice
