since the founding of the people's republic of china over 70 years ago five paramount leaders have shaped the fates and fortunes of the nation and the ruling chinese communist party mao zedong deng xiaoping jiang zemin hu jintao and xi Jinping under their leaderships china has undergone an extraordinary transformation from an undeveloped and insular country to a comprehensive world power in this definitive study renowned sinologist david shambaugh offers a refreshing account of china's dramatic post-revolutionary history through the prism of those who ruled it exploring the persona formative socialization psychology and professional experiences of each leader shambaugh shows how their differing leadership styles and tactics of rule shaped china domestically and internationally mao was a populist tyrant deng a pragmatic leninist jiang a bureaucratic politician hu a technocratic apparatchik and xi a modern emperor covering the full scope of these leaders' personalities and power this is an illuminating guide to china's modern history and understanding how china has become the superpower of today also available as an audiobook

this is the first full-length scholarly study of the chinese core leader and his role in the chinese communist party's elite politics

since 1949 the chinese communist party ccp has maintained an unrivaled grip over the country despite economic calamity widespread social upheaval and even violence against its own people the party has overseen the fastest economic growth in history and only strengthened its hold on power how has it achieved this and how exactly does the party and the government function what is political life like for the people of china and how has this changed over the decades of the party's rule is democracy on the horizon these are some of the questions that animate bruce dickson's exploration of chinese politics today at the core of the party's practices is a dual approach repression when faced with existential political threats and responsiveness when faced with more localized economic or social unrest yet while the regime is responsive to a degree often unacknowledged by international observers ultimately it is not accountable to the public the opportunity for the public to choose leaders is limited to very local levels and it is the party itself that chooses when to compromise and when to repress dickson uses this lens to illuminate a number of key questions how are leaders chosen and how are policies made when is protest and civic engagement allowed and when is it suppressed acknowledging that the inner workings of the party remain shrouded in secrecy dickson draws from the full landscape of sources available to lay out what we know and what the future may hold as xi's rule extends and takes an increasingly repressive approach to governing
